STATE PERMITS

DISTRICT 7 ENVIRONMENTAL OFFICE REQUIREMENTS:

Water and Wastewater Permits Contact program administrative personal District 7 Environmental Office, 1229 Portland Street, Suite 201, St. Johnsbury, VT 05819; 802-751-0130 or Regional Engineer; 802-505-3931 regarding water and/or wastewater permits or a permit for the following:

State Permit--Required Triggers

- (1) the subdivision of a lot or lots;
- (2) the construction of a new potable water supply or wastewater system;
- (3) the physical modification or replacement of an existing potable water supply or wastewater system;
- (4) the construction of a new building or structure, including when reconstruction or replacement;
- (5) the connection of an existing potable water supply or wastewater system to a building or structure;
- (6) the modification of an existing building or structure in a manner that increases the design flow of any component of the potable water supply or wastewater system or modifies other operational requirements of a potable water supply or wastewater system;
- (7) the change in use of a building or structure in a manner that increases the design flow of any component of the potable water supply or wastewater system or

modifies other operational requirements of a potable water supply or wastewater system;

(8) the conversion of an existing public water system to a potable water supply;

(9) the conversion of an indirect discharge system to a wastewater system;

(10) the creation of a campground;

(11) the modification of a campground, including the creation, modification or relocation of one or more individual campsites, in a manner that increases the design flow of any component of the potable water supply or wastewater system or modifies other operational requirements of a potable water supply or wastewater system;

(12) the use or operation of a failed supply or failed system; or

(13) the commencement of construction of any of the above. For the purposes of this Section, the “commencement of construction” means any work involving the physical construction or modification of a building or structure and its associated potable water supply or wastewater system, for example, foundation excavation, foundation construction, and site work that involves or may affect any portion of the existing or proposed potable water supply or wastewater system.

Stream Alterations (contact Patrick Ross 802-279-1143):

- Change, alteration or modification to the course of a stream.
- Gravel movement, fill, or excavation in a stream bed.
- Construction or repair of a bridge.
- Repair of an eroding stream bank.
- Filling in a floodplain/wetland—Shannon Morrison 802-490-6178
