Unless specifically requested, we do not offer cardboard coffins. Despite our utmost care and delicate handling they are easily damaged and their structural integrity is easily compromised. Coffins made from Enviroboard on page 2 are a stronger alternative to cardboard for those wishing to reflect their ecological values.

Heritage - £464

A coffin to care for the environment as well as your loved one. Currently one of the most environmentally conscious coffins we can source. The heritage range are made from a ground-breaking coffin material, Enviroboard, offers both lightness and strength. Manufactured to exclusive specifications. It meets industry requirements yet produces up to 87% less greenhouse gas emissions when cremated than coffins or caskets made from chipboard or MDF.

Coffins made from Enviroboard are fully biodegradable.
