about ICRF

Since 1975, medical researchers, oncologists, and members of the global community have united in the fight to cure cancer with support from ICRF. By funding groundbreaking treatments like Doxil and Velcade, identifying critical genetic mutations such as RAD51 and BRCA2, and advancing pioneering research across a variety of cancers, we continue to support innovation by leveraging the unique strengths of Israel's scientific and medical teams. The impact of this research is felt globally.

about RT 2026

Revolving Tables is ICRF Toronto's next-generation engagement experience, bringing together young professionals in intimate gatherings to connect, learn, and be inspired. Participants engage with mentors—leaders and experienced supporters—while exploring groundbreaking cancer research in Israel and its global impact.

Event Goals:

Build Community: Connect like-minded peers passionate about impact and innovation.

Educate & Inspire: Highlight ICRF's lifesaving research and global significance.

Foster Mentorship: Learn from leaders who guide and motivate meaningful action.

Grow Support: Encourage engagement, philanthropy, and advocacy for ICRF's mission.

Through conversation, mentorship, and community, Revolving Tables turns connection into action and curiosity into impact.
