SAMPLE ID
Species: ☐ Cow ☐Goat ☐ Sheep ☐ Buffalo
Comments:

Instructions for sample submission

- Fill sample vials at least 1/3 of the way to ensure adequate volume for testing.
- Shake milk vials until the orange preservative pill is thoroughly mixed and make sure lids are secure.
- Label all samples with permanent ink and fill out sample submission form completely and legibly.
- Seal samples inside provided bag.
  - Do not put submission form inside plastic bag with samples.
  - Envelopes only: Do not ship more than 5 milk vials or 10 blood vials per envelope to avoid increase in postal charges.
- Place bag of samples and submission form in return mailing envelope or box and seal.
- Refrigerate samples until ready to ship.
- Place package in your mailbox or take to your local post office.

Please note

- If requesting more than one test, please indicate which samples should get which test.
- Samples will not be tested if spoiled, unlabeled or submitted without paperwork.
- To receive your pregnancy test results by phone, dial (717) 925-3079 to access our lab results hotline.
- For any other testing, to request more testing supplies, or for questions about the hotline, please contact your Lancaster DHIA Technician, or call the main office and choose option 9.

PCR Information
