Welcome to the 79th Northeast Florida Fair!

This year, we are very excited to begin the final phase of our revitalization and expansion project here at the fairgrounds. Plans to build a 5000+ seat Agri-Civic Center that will provide a venue for Rodeos, Concerts, Trade Shows and Community Events will be like no other facility in Nassau County.

Over the past 7 years we have built 6 new buildings, paved our 8.25 acre back parking lot, improved our lighting, installed a new waste water system, paved new sidewalks, implemented electronic ticketing, built new restrooms and remodeled our old ones, built a new exit road, built a new 11.75 acre overflow lot and much more!

None of these improvements were possible without assistance from the Florida State Department of Agriculture and tremendous support from the Senate and House of Representatives. We have also gotten assistance from our local government, local corporations and local businesses. We are very appreciative to everyone who has believed in our project and offered their support.

Since 1947 the Northeast Florida Fair Association has been comprised of volunteers who work hard to make the fair happen every year. The fair continues to grow and attendance has exceeded 53,000 for the past 4 years. It continues to cultivate interest in agriculture and to provide a venue for showcasing horses, livestock, poultry, rabbits, sheep, goats, horticulture, baked and canned goods, artwork and handicrafts.

Thank you for participating in and attending the 2026 Northeast Florida Fair.

FLORIDA DEPARTMENT OF AGRICULTURE AND CONSUMER SERVICES COMMISSIONER WILTON SIMPSON

Welcome to the Fair!

Each year, more than four million people attend one of the numerous fairs around our state. As Florida's Commissioner of Agriculture, I am enthusiastic about the positive impact fairs and livestock shows have on our youth and the agricultural industry.

Events like this one are an excellent platform for featuring our hardworking Florida farmers and showcasing the finest "Fresh From Florida" products as well as the industry's latest technological advancements and innovations.

The Florida Department of Agriculture and Consumer Services created and maintains the "Fresh From Florida" Program, which assists small and large producers alike by promoting the wide variety of high-quality products that are grown and harvested in Florida. I hope we can count on your support of this program - just look for items with the sunny "Fresh From Florida" logo. Together we can help our state's agricultural industry thrive.

While you are visiting the fair today, I hope you will take the opportunity to enjoy the outstanding food, entertainment, contests and youth exhibits. Most importantly, I hope your day at the fair will allow you to experience Florida's agricultural roots and its impact on our great state. Enjoy!

Sincerely,

Commissioner Wilton Simpson

NATIONAL SHEEP AND GOAT SCRAPIE ERADICATION PROGRAM

Effective July 1, 2005

Requirements for identification of Sheep and Goats in Shows, Exhibitions, and Fairs

This information is presented to clarify the mandatory identification requirements for sheep and goats under the National Scrapie Eradication Program. There are two components of the identification requirements that must be met before sheep and goats are allowed to move into the state or within Florida (intrastate) for shows, exhibitions, or fairs.

1. Premises identification - Before official individual animal identification tags can be issued, the owner/agent must register the premises on which the animal is located and obtain a premises identification number from USDA.

2. Individual animal identification - Once the premises are registered, the owner/agent will receive official individual animal identification tags for identifying each sheep and goat. Applicator pliers will be provided to FFA, 4-H leaders and/or fair/livestock/show committee for assisting exhibitors of the official ear tags.

The premises must be registered before the exhibitor can receive the official individual ear tag for each animal. The official tags must be applied to the exhibitor's animals prior to presenting them for exhibition. Official ear tags must be affixed by FFA, 4-H leaders or by a representative of the Livestock Show committee or veterinarian.

THE NORTHEAST FLORIDA AGRICULTURE FAIR SUPPORTS

THE NATIONAL CODE OF SHOW RING ETHICS

Exhibitors of animals at livestock shows shall at all times deport themselves with honesty and good sportsmanship. Their conduct in this competitive environment shall always reflect the highest standards of honor and dignity to promote the advancement of agricultural education. This code applies to junior as well as open class exhibitors who compete in structured classes of competition. This code applies to all livestock offered in any event at a livestock show. In addition to the "IAFE National Code of Show Ethics," fairs and livestock shows may have rules and regulations which they impose on

the local, county, state, provincial and national levels.

All youth leaders working with junior exhibitors are under an affirmative responsibility to do more than avoid improper conduct or questionable acts. Their moral values must be so certain and positive that those younger and more pliable will be influenced by their fine example. Owners, exhibitors, fitters, trainers and absolutely responsible persons who violate the code of ethics will forfeit premiums, awards and auction proceeds and shall be prohibited from future exhibition in accordance with the rules adopted by the respective fairs and livestock shows. Exhibitors who violate this code of ethics demean the integrity of all livestock exhibitors and should be prohibited from competition at all livestock shows in the United States and Canada.

The following is a list of guidelines for all exhibitors and livestock in competitive events:

1. All exhibitors must present, upon request of fair and livestock show officials, proof of ownership, length of ownership and age of all animals entered. Misrepresentation of ownership, age, or any facts relating thereto is prohibited.
2. Owners, exhibitors, fitters, trainers, or absolutely responsible persons shall provide animal health certificates from licensed veterinarians upon request by fair or livestock show officials.
3. Junior exhibitors are expected to care for and groom their animals while at fairs or livestock shows.
4. Animals shall be presented to show events where they will enter the food chain free of violative drug residues. The act of entering an animal in a livestock show is the giving of consent by the owner, exhibitor, fitter, trainer and/or absolutely responsible person for show management to obtain any specimens of urine, saliva, blood, or other substances from the animal to be used in testing. Animals not entered in any event which culminates with the animal entering the food chain shall not be administered drugs other than in accordance with applicable federal, state and provincial statutes, regulations and rules. Livestock shall not be exhibited if the drugs administered in accordance with federal, state and provincial statutes, regulations and rules affect the animal's performance or appearance at the event.

If the laboratory report on the analysis of saliva, urine, blood, or other sample taken from livestock indicates the presence of forbidden drugs or medication, this shall be prima facie evidence such substance had been administered to the animal either internally or externally. It is presumed that the sample of urine, saliva, blood, or other substance tested by the laboratory to which it is sent is the one taken from the animal in question, its integrity is preserved and all procedures of said collection and preservation, transfer to the laboratory and analysis of the sample are correct and accurate and the report received from the laboratory pertains to the sample taken from the animal in question and correctly reflects the condition of the animal at the time the sample was taken, with the burden on the owner, exhibitor, trainer, or absolutely responsible person to prove otherwise.

At any time after an animal arrives on the fair or livestock show premises, all treatments involving the use of drugs and/or medications for the sole purpose of protecting the health of the animal shall be administered by a licensed veterinarian.

5. Any surgical procedure or injection of any foreign substance or drug or the external application of any substance (irritant, counterirritant, or similar substance) which could affect the animal's performance or alter its natural contour, confirmation, or appearance, except external applications of substances to the hoofs or horns or animals which affect appearance only and except for surgical procedures performed by a duly licensed veterinarian for the sole purpose of protecting the health of the animal is prohibited.
6. The use of showing and/or handling practices or devices such as striking

animals to cause swelling, using electrical contrivance, or other similar practices are not acceptable and are prohibited.

7. Direct criticism or interference with the judge, fair or livestock show management, other exhibitors, breed representatives, or show officials before, during, or after the competitive event is prohibited. In the furtherance of their official duty, all judges, fair and livestock show management, or other show officials shall be treated with courtesy, cooperation and respect and no person shall direct abusive or threatening conduct toward them.
8. No owner, exhibitor, fitter, trainer, or absolutely responsible person shall conspire with another person or persons to intentionally violate this code of ethics or knowingly contribute or cooperate with another person or persons either by affirmative action or inaction to violate this code of ethics. Violation of this rule shall subject such individual to disciplinary action.
9. The application of this code of ethics provides for absolute responsibility for an animal's condition by an owner, exhibitor, fitter, trainer, or participant whether or not he or she was actually instrumental in or had actual knowledge of the treatment of the animal in contravention of this code of ethics.
10. The act of entering an animal is the giving of consent by the owner, exhibitor, fitter, trainer, or absolutely responsible person to have disciplinary action taken by the fair or livestock show for violation of this Code of Show Ring Ethics and any other rules of competition of the fair or livestock show without recourse against the fair or livestock show. The act of entering an animal is the giving of consent that any proceedings or disciplinary action taken by the fair or livestock show may be published with the name of the violator or violators in any publication of the International Association of Fairs and Expositions, including *Fairs and Expositions* and any special notices to members.
11. The act of entering of an animal in a fair or livestock show is the giving of verification by the owner, fitter, trainer, or absolutely responsible person that he or she has read the IAFE National Code of Show Ring Ethics and understands the consequences of and penalties provided for actions prohibited by the code. It is further a consent that any action which contravenes these rules and is also in violation of federal, state, or provincial statutes, regulations, or rules may be released to appropriate law enforcement authorities with jurisdiction over such infractions.
