

# WHAT IS NATURAL BURIAL?

Natural burial is a way of caring for our loved ones and also aides in the conservation of natural resources, reduction of carbon emissions, protection of worker health and the preservation of the habitat.

Highland Meadow will allow families to mourn and take part in the grieving process. It is an intimate and hands-on way to honor your loved ones, surrounded by nature in the serenity of the meadow, returning a body to the Earth.

## WHY

### Natural Burial

- Eco-friendly
- Environmental and emotional benefits
- Exclusive options for those who choose cremation
- Natural grave memorials
- Interactive memorial service
- Catered to individual beliefs
- Celebration of life
- More options for the unchurched
- Welcomes families to be involved
- Becomes a part of the healing service  
Simpler end to our lives

# FAQ

## WHAT BURIAL ENCLOSURES ARE ALLOWED IN THE HIGHLAND MEADOW?

Use of a shroud, natural burial container or biodegradable urns are permitted.

## IF IT'S NATURAL, WHAT TYPE OF MEMORIAL CAN I HAVE?

The cemetery will provide you with options for a natural stone memorial.

## CAN WE HAVE PLANTS?

Yes! However, they must be selected from the cemetery's approved planting list.

## IS THERE ONLY A CERTAIN TIME BURIALS CAN BE DONE IN THIS AREA?

No. Burials occur year round, on a first come, first served basis.

## HOW DO YOU KEEP TRACK OF WHERE EVERYONE IS?

Each site is plotted very precisely and recorded carefully in our database.
