## HIRED! - A Thrilling Romance

written, produced and directed by  
**THOMAS B. THOMSON**

I reall can say:  
"Movies are my first love".  
For a kid growing up in the country side in the 90's, I took every opportunity to escape. So I wrote and directed and took every chance to get out.  
For some time I switched directing for acting, but when I went back behind the camera, my understanding of all things film was even deeper.  
So I give every production all the attention and affection it deserves, no matter how small , as WRITER, as PRODUCER, or as DIRECTOR.
