Monthly Billing Information

- Tuition is billed at a flat monthly rate and is based on the yearly class schedule, rather than the number of class meetings in a specific month. Some months may include three classes, while others may include five, with no additional charge. Over the course of the year, these variations balance out to provide consistent monthly billing.
- Monthly tuition is automatically processed on the 27th of each month for the upcoming month
- New enrollments beginning mid-month will be pro-rated based on the student's start date.
- A valid payment method must remain on file at all times to maintain enrollment

Annual Registration Fee

A \$50 annual registration fee is required for all students upon enrollment and each year thereafter. This fee provides the secondary liability insurance required for students to participate in classes and use gym equipment.
