

TRANE[®] HOME

GETTING
STARTED

Optimize the comfort and efficiency of your home with a Trane smart comfort system. Adjust your temperature, set your schedule, and view your HVAC usage from anywhere with the Trane Home mobile app.

Trane® Home.

The app that puts you in control.

Optimize the comfort and efficiency of your home with a Trane smart comfort system. Adjust your temperature, set your schedule, and view your HVAC usage by connecting to your smart thermostat with the Trane Home mobile app. With compatible accessories, you can further customize your comfort.

You can even get alerts on the Trane Home app if your system needs attention. The newest Diagnostics feature, Dealer Remote Access, allows you to grant limited access to your connected control so that your Trane dealer or technician can access it remotely, offering you the convenience and flexibility to avoid unnecessary service appointments.

Recognized as a 5-star Smart Thermostat Brand in 2022 America's Most Trusted Study*, Trane is an HVAC expert you can trust.

*Trane ranked in the Top 3 in the proprietary Lifestory Research 2022 America's Most Trusted® Smart Thermostat Brand study. Study results are based on experiences and perceptions of people surveyed. Your experiences may vary. Visit www.lifestoryresearch.com.

We'll help diagnose your system with Remote Access Capabilities.

With Dealer Remote Access, Trane offers the unique capability of remote access to your home's smart thermostat to help diagnose and prevent issues down the road. That's right— with your permission, your preferred dealer can diagnose your HVAC system without physically sending a service technician or dealer to your home.

WE CARE ABOUT YOUR PRIVACY

Homeowners can only share their system's data when they manually choose to.

COMFORT FOCUSED CONTROLS

Get a handle on your energy consumption with scheduling, and use less energy when everyone's away

Raise or lower the temperature in your home remotely

Control small appliances such as ensuring a fan is turned on at 6am and turned off by 9am on selected days of the week

Save energy

If you've ever left home and forgotten to turn down the thermostat, you know how frustrating it can be. With the Trane Home app, you avoid the issue altogether since adjusting the thermostat remotely can be done right from your phone. The "Modes" feature also allows for simple set-ups you can program before vacations and time away from home.

Schedule

Optimize your system for your daily routine with the "Scheduling" feature.

Life can be stressful enough on its own, so having one less thing to worry about can make all the difference. Using the "Scheduling" feature, you can program the temperature for when you are home, when you are away, and when you're sleeping.

Get the most out of your money.

Not only does smart tech bring cool features to your home, it can help you save energy and money. The EPA reports that you could save roughly \$180 a year by using a programmable thermostat.* And it's even easier with a smart thermostat that does all the thinking for you.

Our dealers put you in control.

Your independent heating and air conditioning dealer who offers the Trane® Home system and compatible products is a highly trained professional who will work with you every step of the way in choosing the system that's right for you – from walking you through the entire purchasing process to conducting an in-depth analysis of your home and your comfort needs. Based on that information, your dealer will recommend a system that works best for your home. After all, the more efficient the system, the more comfortable you'll be.

Build your system.

Hundreds of additional Trane Home compatible Z-Wave® products are available online and from most consumer electronics and home improvement retailers. These add-ons are Trane certified and readily available from your local Trane dealer.

Z-WAVE TEMPERATURE & HUMIDITY SENSOR

Remotely sense and control temperature and humidity. Enhance your HVAC system control by simply adding the sensor to the smart thermostat's built-in Bridge for Z-Wave Devices.

- ✓ **User onboarding** via email to highlight our top features
- ✓ **HVAC expertise** creates the best comfort experience in your home

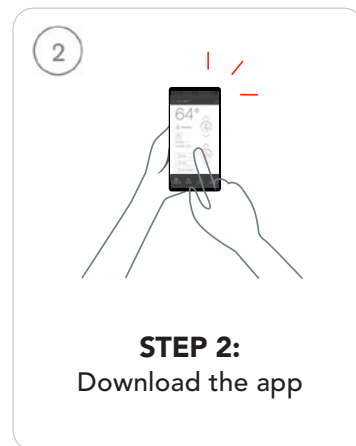

Adjust your temperature, set your schedule, and view your heating and air conditioning usage from anywhere.

What do I need to get started?

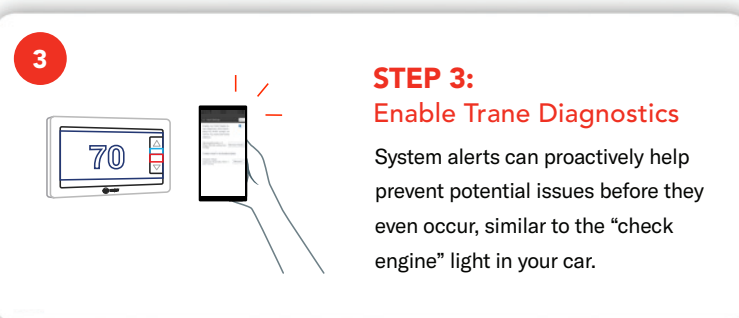

- ☐ Active broadband internet connection
- ☐ Sufficient Wi-Fi signal strength at the smart thermostat mounting location
- ☐ Trane Smart Thermostat OR stand-alone bridge for Z-Wave® Devices
- ☐ A valid e-mail address
- ☐ For mobile accessibility, an iOS™ or Android™ smartphone or tablet with internet access

STEP 1:
Select and install

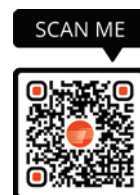

STEP 2:
Download the app

STEP 3:
Enable Trane Diagnostics

System alerts can proactively help prevent potential issues before they even occur, similar to the “check engine” light in your car.

TRANE DEALERS ARE AS HARD TO STOP AS A TRANE ITSELF.

Independent Trane dealers take great pride in creating your perfect indoor environment. They are some of the most highly trained professionals in the business—with an extensive understanding of the movement and conditioning of air and the expertise to recommend, install and maintain the right system for your home.

WE ARE COMMITTED TO USING ENVIRONMENTALLY FRIENDLY PRINTING PRACTICES.

WHY IS INDOOR AIR QUALITY IMPORTANT?

We spend 90% of our time indoors, and 70% of that is in our home¹ where the air can be up to 5X poorer quality than the air outside². To help improve your indoor air, Trane offers a complete portfolio of air filtration equipment for whole home solutions for new and existing units.

TRANE CLEANEFFECTS® AIR CLEANER

Utilizes patented technology to deliver cleaner air to the whole home by removing up to 99.98% of airborne particles³ that pass through the re-usable filter, including 99.9% of the Influenza A (H1N1) virus⁴. This level of filtration makes it up to 100X more effective than a standard 1" filter⁵. Plus, it's the ONLY whole-home electronic air cleaner that is certified **asthma & allergy friendly**⁶ by the Asthma & Allergy Foundation of America.

Trane CleanEffects® is verified zero ozone producing so you can breathe easier knowing your air is free from harmful byproducts.⁶

ENERGY RECOVERY VENTILATORS (ERV)

Provide an energy-efficient way to exchange air inside your home with fresh air from outside, removing lingering odors like cooking smells while improving overall air quality.

HUMIDIFIERS AND DEHUMIDIFIERS

Deliver the right amount of moisture to the air throughout your home, adjusting from summer to winter.

Contact your Dealer or visit [Trane.com/Residential](https://www.trane.com/Residential) to learn more.

¹The National Human Activity Pattern Survey (2001) | ²U.S. Environmental Protection Agency. EPA/600/6-87/002a. (1987)

³Based on 3rd party testing of particle removal efficiency down to 0.3 microns (2005)

⁴As reported by airmid healthgroup in ASCR092142v2 (2015) | ⁵Assuming <1% removal rate of 0.3-10 micron particles

⁶Verified Zero Ozone per UL 2998, Intertek certificate #Z0Z-90113-2023c
