Standing Screen

ProSound PET Felt Acoustic free-standing screens are an innovative solution designed to enhance acoustic comfort while adding a stylish, modern aesthetic to any space. Made from high-quality recycled PET material, these panels offer an eco-friendly and sustainable way to control sound, reduce echo, and create a visually appealing environment.

PET Felt acoustic screens deliver exceptional sound performance whilst providing privacy and design flexibility. Easy to move and simple to install by simply slotting into place, PET Felt acoustic screens enable you to reduce echo and reverberation whilst meeting your individual design needs.

We understand that acoustic improvements often need to be done at speed, which is why our acoustic screens are delivered to your door within 4-7 working days.

At The Soundproofing Store, we are committed to delivering high-quality acoustic solutions. Our PET Felt Acoustic Screens are the perfect blend of form and function, offering excellent sound control while maintaining an elegant aesthetic. Whether you're a homeowner, architect, designer, or business owner, we have the perfect acoustic solution for you.
