PEPLINK · MAIN BRAND

Peplink: stay online, whatever happens

Peplink routers combine several connections. If one drops out, you will not notice. Ideal as a backup for offices, shops and vehicles.

FEATURED · 5G

Peplink B One 5G

- 5G up to 3.4 Gbps download
- 2× Gigabit WAN and 4× Gigabit LAN
- Wi-Fi 6 and Wi-Fi as WAN
- SIM and eSIM, plus a backup SIM slot
- Hot Failover, Smoothing and Bonding
- SpeedFusion VPN up to 400 Mbps
- Starlink integration
- For 1 to 150 users

Price on request

VEHICLES AND RAIL

Peplink BR1 Pro 5G

- 5G up to 4.1 Gbps download
- 2.5G WAN, Wi-Fi 6 and GPS
- Rugged: −40 to 65 °C
- E-Mark, EN50155 and MIL-STD-810H

Price on request

COMPACT AND EFFICIENT

Peplink MAX BR1 Mini 5G

- 5G up to 3.4 Gbps download
- Metal housing, fanless
- Can be powered via PoE
- For 1 to 60 users

Price on request

SPEEDFUSION

Hot Failover

If a link fails, the router switches over without dropping your sessions.

SPEEDFUSION

Bonding

Use connections together for more speed and stability.

MANAGEMENT

InControl 2

Manage and monitor all your routers remotely, from anywhere.

PrimeCare is included for the first year with the B One 5G. Speeds are maximum values according to the manufacturer.

TELTONIKA · MAIN BRAND

Teltonika: industrial and smartly managed

Reliable 4G and 5G routers from Europe. For offices, industry, cameras and IoT. With RMS you manage everything remotely.

NEW · 5G AND WI-FI 7

Teltonika CAP700

- 5G up to 4.0 Gbps download and 900 Mbps upload
- 6 internal 5G antennas, plug & play
- Wi-Fi 7 dual-band, up to 128 clients
- 1× 2.5 Gbit/s WAN/LAN and 1× Gigabit LAN
- Failover and load balancing
- WireGuard, OpenVPN, IPsec and Tailscale
- Phone port (RJ11) and SMS functions
- Remote management with RMS

Price on request

DUAL 5G

Teltonika RUTM52

- Two 5G modems
- Dual SIM and eSIM
- Five Gigabit ports

Price on request

COMPACT INDUSTRIAL

Teltonika RUTM30

- 5G router
- Dual SIM and eSIM
- With Wi-Fi

Price on request

MANAGEMENT

Teltonika RMS

- Manage routers remotely
- Even without a public IP
- Updates and alerts

Price on request

SECURE

Built-in VPN

WireGuard, OpenVPN and IPsec for secure access to your network.

RELIABLE

Backup

Failover to a second SIM card or connection during an outage.

MANAGEMENT

RMS

Settings, updates and alerts remotely, from a single screen.

Speeds are maximum values according to the manufacturer. Actual speed depends on coverage and network load.

PLUG & PLAY WITH MELITA.IO

Insert the SIM, switch on, done. How easy is that?

A Melita.io SIM card is recognised automatically by Teltonika routers. There is no need to set an APN. The router does it for you.

1

Insert the SIM

Place the Melita.io SIM card in your Teltonika router.

2

Switch on

Power up the router. Auto APN is enabled by default.

3

Connected

The router selects the correct APN itself. You are online.

Good to know

- Works on Teltonika routers and gateways with RutOS 7.23 or later
- Auto APN is enabled by default
- APNs: **iot.melita.io** and **web.melita**
- IoT SIM cards without a PIN code
- In the Netherlands on KPN, Odido and Vodafone
- 4G, 5G, LTE-M and NB-IoT
- Cancel monthly

OFFICIAL DEALER

Topcom Telecom and Melita.io

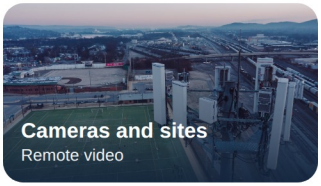

Topcom Telecom is an official Melita.io dealer in the Netherlands. Router and SIM card arrive together, tested and ready to use.

MELITA.IO IOT SIM CARD

From €0.55

per SIM card per month, excl. VAT.

Auto APN works on Teltonika. With a Peplink, Ericsson or other router, you set the APN once. We are happy to help.
