SHOWER TRAY SERIES

From space-efficient solutions for compact bathrooms to statement pieces for luxurious settings, our shower trays are designed to elevate your shower experience.

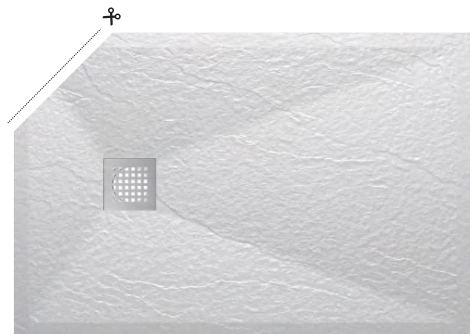

Transform your bathroom into a sanctuary of style and comfort with our innovative shower trays-where practicality meets art.

Matt Surface

1. Irregular and non-repetitive natural stone patterns
2. Stone-like texture and tactile sensation
3. Texture depth that adapts to the flow of water

Cuttable

The product can be cut to suit different bathroom environments.

The new Shower Trays has a back structure of Honeycomb Structure

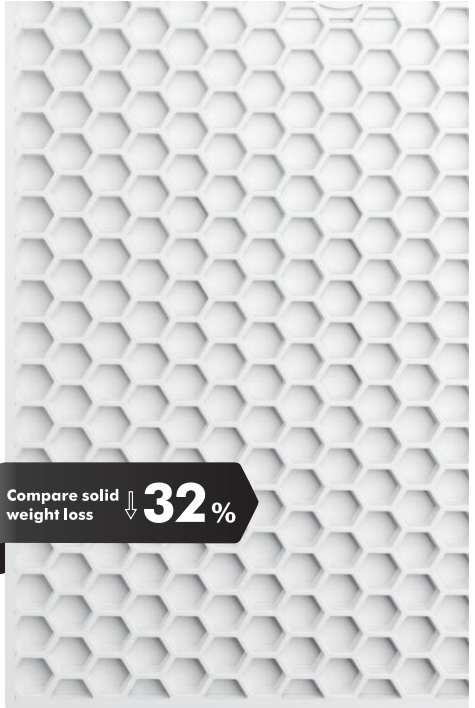

1. Exceptional Strength and Stability: The multi-point connection design of the honeycomb structure significantly enhances overall and localized strength, ensuring long-term resistance to deformation.
2. Outstanding Load-Bearing and Support Performance: The honeycomb structure evenly distributes pressure, providing superior ground support, robust durability.
3. Effortless Installation: Easy to install meanwhile adjustable pedestal offers unparalleled flexibility and adaptability to various installation conditions.

The textured finish provides the shower tray with a highly antislip feature(**class C**), achieving a great security during its use.

Functional And Comfortable

Our shower tray has progressive drainage slopes (not uniform) designed to facilitate a fast water drainage. It also has a high capacity drain (0,6 L/sec) facilitating a fast water drainage ensuring a great comfort and carefree experience.

Seamless Elegance & Accessibility

The ultra-thin design ensures a sleek, modern aesthetic that seamlessly integrates into any bathroom. Its flush installation eliminates barriers, providing effortless accessibility, making it an ideal choice for all users, including those with reduced mobility.

Detail presentation 细节展示

Product characteristics 产品特点

- It can be perfectly integrated with other product systems
- Automatic lifting seal design, the watertightness of the high threshold structure can reach 700pa, which is a good solution to the watertightness of the external door
- The unique lock point lock seat design complies with the EU WK2 safety rating
- Integrated design, hardware and profiles to achieve high precision, the design can reach 120,000 times of repeated opening (national standard 100,000 times), in line with more than 30 years of service life
- 可实现与其他产品系统之间的完美结合
- 全自动升降密封设计,采用高门槛结构水密性可达700pa,很好的解决外门水密性能问题
- 独特的锁点锁座设计,符合欧盟WK2安全等级
- 一体化设计,五金与型材实现高精度配合,设计可达12万次反复开启(国标10万次),符合30年以上使用年限

Product characteristics 产品特点

- Wooden cable special connector, can change the column section size, increase the wind pressure strength, suitable for large doors and Windows
- Beam and column using special connecting parts, more firm, precise connection without gap
- Optional glass configuration, three glass two hollow, energy saving effect is more obvious
- Selected imported oak, solid wood interior, metal coat, sunscreen moisture-proof, durable; Solid wood interior, better performance of doors and Windows, sound insulation and noise reduction, water tightness, air tightness is more prominent
- Color selection can be customized, natural solid wood texture, the overall elegant and dignified
- 木索专用连接件, 可通过改变立柱截面大小, 增加抗风压强度, 适用于超大门窗
- 横梁与立柱采用专用连接件, 更加牢固, 连接精密无缝隙
- 可选多种玻璃配置, 三玻两中空, 节能效果更明显
- 选用进口橡木, 实木内质, 金属外衣, 防晒防潮、经久耐用; 实木内质, 门窗性能更佳, 隔音降噪, 水密性、气密性更突出
- 颜色多选可定制, 天然实木纹理, 整体典雅端庄

Product characteristics 产品特点

- Imported oak is used in the interior, and the thickness of main beam and auxiliary beam can be adjusted to achieve a large-span scheme. Outdoor with aluminum alloy moisture protection
- Adopts the joint mode of the job and the hidden wooden cable connection, which has high load-bearing strength
- With laminated tempered glass, safe and beautiful
- Independent embedded lighting system LED strip hidden in solid wood
- Intelligent supporting system, can be equipped with electric sunshade electric window opener, easy to operate
- Professional waterproof solution, with gutter drop design, foundation protection board, better drainage performance
- 室内采用进口橡木,可调节主梁、副梁厚度实现大跨度方案;室外搭配铝合金防潮防
- 采用椎卯搭接方式,隐藏式木索连接件,承重强度大
- 搭配夹胶钢化玻璃,安全美观
- 独立嵌入式照明系统LED灯带隐藏于实木中
- 智能化配套系统,可搭配电动遮阳电动开窗器,操作方便
- 专业防水解决方案,配合天沟落水设计、地基护板,排水性能更佳

ALUMINUM LOUVER
