

Order Now

For spring, and **SAVE on all Parts** for your tillage machine!

Pre-book & paid for by Dec 30, 2025

Cash purchase or JDF Multi-use account

Pre-purchase now, and save 10% with advance payment or 5% if paid upon receipt on wear parts and all other parts for your tillage machine! Plus, get 180 days no-payments/no-interest!

Tractor Central Exclusive: One Year Warranty on Tillage Parts!*

10 Reasons why genuine John Deere sweeps & shovels are the best tillage value in the industry:

Invest in the Best!

1. John Deere uses modified premium 1080 high-carbon steel for maximum wear and ruggedness, prepared to John Deere specifications for improved durability and longer wear.
2. The shank and point angles are precision set for optimum down-force and digging action
3. The four-point, standard-to-shank contact eliminates twisting; it locks sweep square to the standard for level tillage action
4. Clean, reinforced bolt holes ensure tight bolt fit for positive sweep-to-standard retention
5. Beveled, accurate wing edges promote aggressive, even cutting action and wear.
6. Symmetrical wing formation causes even draft, soil flow, and cutting action.
7. Sixty (60) minutes from raw blank to finished part produces a tough grain structure and consistent heat treat for unmatched wear and endurance.
8. An acrylic resin is used for environmentally safe part-coating protection and easy scouring
9. Individual parts are computer and data recorded to ensure consistent quality from the first to last piece.
10. Inline forge-to-quench process maximizes heat-treat control and provides tough grain structure; consistent heat treat provides unmatched wear and endurance.

No Payments / No Interest until July 1, 2026*

BONUS OFFER:

No Payments/No Interest until January 2027 on Pallet Quantities!
