

Makes Your Hands More Powerful

HIVAMAT®

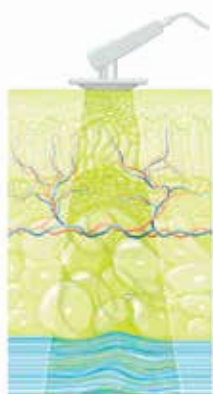

Deep Oscillation

Deep Oscillation Therapy

Gentle biological oscillations using electrostatic attraction and friction

Permeates Up To 8 cm Deep

Non-invasive, non-thermal therapy method that creates biological oscillations using electrostatic attraction and friction. This generates a gentle kneading effect deep within the tissue.

Clinically Proven Effects:

- Relieves Pain
- Relaxes Muscles
- Promotes Mobility
- Reduces Secondary Lymphedema
- Improves Lymphatic Circulation
- Activates Connective Tissue

Dual Application

Apply treatment with applicator or vinyl gloves for device-assisted manual therapy

Treatment Programs

Pre-Programmed parameters can be dynamically adjusted during treatment or create individual settings.

Therapy Card

Therapy cards activate treatment programs
