

## ALLIANCE CODE OF CONDUCT

### Our Story

Alliance was founded in **2009** on a simple belief: **great teams are built together**. In Central California, where talent was often spread across many teams, Alliance was created to unify players under a shared vision of growth, accountability, and long-term development. From the beginning, Alliance was about more than winning—it was about building a **family-driven culture** rooted in respect, hard work, and commitment to one another.

Over the years, Alliance has grown into a respected competitive program across regional and national events, supported by strong partnerships and a dedication to developing players both on and off the field. Through consistency, loyalty, and teamwork, Alliance has remained strong while many programs have come and gone.

Today, Alliance represents a commitment to **team-first behavior**, disciplined competition, and positive representation of our teammates, coaches, sponsors, and Alliance Precision Sports. This Code of Conduct exists to protect that culture and ensure every player understands what it means to wear the Alliance name.

### Our Purpose

Alliance exists to unite players under one standard of discipline, teamwork, and commitment—building athletes who compete with purpose and represent something bigger than themselves.

**One Team. One Standard. One Alliance.**

### Alliance Core Commitments

At Alliance, every expectation—on and off the field—falls under three core commitments:
