

You are writing landing page copy for an SEO-driven service page. This will be generated once per location listed below, using the shared service details.

CORE SERVICE: Deep Cleaning Services

FOCUS: Deep cleaning services provide a thorough top-to-bottom cleaning that targets built-up dirt, grime, dust, and hard-to-reach areas often missed during routine cleaning. This service is ideal for seasonal cleaning, move-ins, move-outs, post-renovation cleanup, and preparing properties for new occupants.

PAGE FOCUS (audience & angle): This page should appeal to homeowners, property managers, landlords, and businesses needing a more comprehensive cleaning than standard maintenance. Highlight the value of restoring cleanliness, improving hygiene, and creating a fresh, healthy environment through meticulous attention to detail.

SUPPLEMENTARY KEYWORDS TO INCORPORATE (spread these across the sets — do not cram all of them into one set, and do not repeat the same keyword across sets for the same location unless unavoidable):

- professional deep cleaning services
- residential deep cleaning company
- commercial deep cleaning services
- move in deep cleaning
- move out deep cleaning services
- spring deep cleaning services
- one time deep cleaning
- top to bottom cleaning service
- post renovation deep cleaning
- detailed home cleaning service

LOCATIONS:

- Berkeley, MO
- Bridgeton, MO
- Chesterfield, MO
- Clayton, MO
- Creve Coeur, MO
- Earth City, MO
- Ferguson, MO
- Florissant, MO
- Hazelwood, MO
- Ladue, MO
- Maryland Heights, MO
- Overland, MO
- St. Ann, MO
- St. Louis, MO
- Town and Country, MO
- University City, MO

- Maplewood, MO
- Richmond Heights, MO
- Webster Groves, MO
- Kirkwood, MO
- Ellisville, MO
- Ballwin, MO
- Manchester, MO
- Wildwood, MO
- Valley Park, MO
- Fenton, MO
- Arnold, MO
- Sappington, MO
- Affton, MO

TASK: For EACH location above, generate exactly 3 distinct "Section Title" + "Section Description" pairs for that location's landing page.

Requirements:

- Each of the 3 sets (per location) must take a genuinely different angle or emphasis on the core service (e.g. one might focus on the support process, another on outcomes/benefits, another on who it's for) — they should not just be reworded versions of each other.
- Naturally weave in 2-4 of the supplementary keywords per set (varied across sets, not the same ones every time) — keywords must read naturally in context, not stuffed.
- Naturally reference the specific location in at least one of the sets for that block, in a way that reads locally relevant (not just tacked onto the end).
- Section Title: short, compelling, 4-9 words.
- Section Description: 2-4 sentences, natural marketing/informational tone suitable for a service landing page. Aim for 60–120 words per section description
- Do not reuse the exact core service phrase as the title verbatim across sets — vary the phrasing.
- Keep phrasing distinct from location to location as well — do not reuse the same sentence structure for every block.

Aim for 60–120 words per section description

OUTPUT FORMAT — FOLLOW THIS EXACTLY:

Do not write plain text paragraphs or labels. Generate the content directly into a single Markdown table. Each location must have its own row in the table. Use this exact structure:

Location	Section Title 1	Section Description 1	Section Title 2	Section Description 2	Section Title 3	Section Description 3
:---	:---	:---	:---	:---	:---	:---

Do not include any introduction, conversational filler, or summary. Start directly with the table header and output all locations seamlessly.

What it would look like after:

Location	Section Title 1	Section Description 1	Section Title 2	Section Description 2	Section Title 3	Section Description 3
Berkley, MO	Refresh Every Corner	Our professional deep cleaning services remove hidden buildup and overlooked debris. Berkley homes receive a detailed home cleaning service designed for lasting freshness.	Cleaner Spaces For Transitions	Our move in deep cleaning helps prepare properties for new occupants. Complete Restoration Support	Post renovation deep cleaning removes leftover dust and debris. Our residential deep cleaning company helps restore everyday comfort.

Step 1: Highlight and copy everything from the **Column Title** all the way to the end of the AI's response.

Step 2: Open the spreadsheet you are optimizing and select your target cell.

Step 3: Simply press **Ctrl + Shift + V** (Cmd + Shift + V on Mac) to paste. This strips out the background formatting and maps the data perfectly into your rows and columns.

Perfectly Optional (So you know which images to look for/generate)

IMAGE PLAN GENERATION TASK:

Based on the results and text provided above, generate a single, master image plan consisting of 3 distinct image options (one for Section 1, one for Section 2, and one for Section 3). This master plan will be used universally across all generated location variations to ensure a consistent layout.

Output the plan in a clean, side-by-side tile layout using the markdown table structure below. Do not include any introduction, explanation, or summary—start directly with the table.

Section 1 Image Plan	Section 2 Image Plan	Section 3 Image Plan

| ****Image Description 1:**** [Detailed description of a high-quality photo representing the core service focus, themes, or process mentioned in Section 1]

 ****Alt Text 1:**** [SEO-optimized, descriptive master alt text focusing on the main service keyword from Section 1]

 ****Image Type 1:**** Photo | ****Image Description 2:**** [Detailed description of a high-quality photo focusing on the outcomes, benefits, or secondary angle highlighted in Section 2]

 ****Alt Text 2:**** [SEO-optimized, descriptive master alt text focusing on the secondary service keywords from Section 2]

 ****Image Type 2:**** Photo | ****Image Description 3:**** [Detailed description of a high-quality photo showing the target industries, audience, or settings highlighted in Section 3]

 ****Alt Text 3:**** [SEO-optimized, descriptive master alt text focusing on the target audience keywords from Section 3]

 ****Image Type 3:**** Photo |

Make sure to check how many words there are in a section description. Remember it must be atleast 60-120 words.
