

# Captive Review Power 50 Announced

Tags: [Captive Review](#), [Power 50](#)

The annual and much-anticipated *Captive Review* Power 50 list has been announced.

The *Captive Review* Power 50 is an annual list of the 50 most influential captive insurance professionals from the last year. With entrants from around the world, representing the best of the best of the captive industry.

The list was announced during a virtual event on Thursday, bringing the global captive community together in a social setting.

The Power 50 has continued to grow in popularity over the years, and 2021 was no different. There were more than 18,000 individual votes for the Power 50 this year, the most ever.

The Power 50 honours captive professionals that excelled in 2020, who are champions of the captive insurance industry, dedicated professionals who are collegiate, innovative, committed, visible, and shown excellence over the past year.

In a new turn, *Captive Review* has decided to separate the captive owners from the Power 50, in order to honour the many captive owners who have worked tirelessly over the last year in incredibly difficult environments.
