

Whether on an I-Phone, Android Device, or computer you will need this link for reference:

https://calendar.google.com/calendar/embed?src=mstreaming%40stroseschoolpa.org&ctz=America%2FNew_York

If You Have an iPhone

Here's how to do it on an iPhone. Just follow these steps:

1. Open your phone's **Settings** app.
 2. Scroll down and tap on **Calendar**.
 3. Tap on **Accounts**.
 4. Select **Add Account**.
 5. Tap on **Other**.
 6. Choose **Add Subscribed Calendar**.
 7. Paste the calendar link you copied earlier into the field and hit **Save**.
-

If You Have an Android Phone

This is a bit different for Android, *and it's a little easier if you do it on a computer first.*

1. On a browser or the app, go to [Google Calendar](#) and log into your account.
2. On the left-hand side, look for the **+** button next to **"Other calendars"** and click it.
3. Choose **"From URL"** and paste the calendar link there.
4. Click **Add calendar**. It will now automatically show up on your phone's calendar app.
