Experiences & Opportunities

Team Siblings

Each dancer is paired with another! Siblings are assigned with age and years on the team in mind. This experience is intended to build a cooperative environment and foster friendship for new team families as they navigate this new experience. The 'oldest' sibling and their parents can provide support, information and a unique point of view to new member families. The dancers benefit from the sibling experience during events/activities, rehearsals and competition award ceremonies. Although it is not a requirement, small 'gifts' are often exchanged during events as a show of encouragement or congratulations between siblings.

Volunteer Opportunities

Celebration Committee - little surprises for the full team at competition events

Prop Committee - help transport props to weekly rehearsals and competitions

Showcase Committee - help coordinate concessions and select local non-profit

Media/Photographer Committee - capture memories of the dancers at all events for use on social media and newspaper announcements

Fundraising Committee - Create, organize, coordinate and submit details to the team coordinator (some ideas to consider: bingo / pools for sporting events)

Experiences & Opportunities (*continued*)

Makeup and Hair Class

Prior to the team headshot photo session, senior team dancers will host a class for new team members. This class will provide best practices for applying makeup and creating professional hair.

Competition Dress Rehearsal

Each December, in preparation for the upcoming competitive season, the team hosts an in-studio dress rehearsal. The date of this event will be confirmed in September to ensure that each team member has the required gear, makeup and accessories, shoes, and tights, understands the hair requirements and is ready for the upcoming season. Parents are invited to attend and photograph!

Annual Benefit Showcase

An opportunity for family and friends to view invitational competition dances from the current season without travel and competition weekend schedules. This performance will:

- Contain **only** dances that compete in the current season
- Contain **only** dances that never performed in an annual recital
- Provide a program detailing achievements for each performance with an opportunity to purchase ads and messages for your dancer
- Offer unlimited, free tickets
- Benefit a preselected, local non-profit organization

The Band App

We have created a group exclusively for team families in the Band App. Please download the app today and join! We will share photos, videos, and information about all things TEAM in this group. **The calendar** in this group will provide details on **rehearsals, private lessons, team breaks, make-up weeks, performances, social events, etc.** We also encourage families to use the app when they are looking for information or have any questions about events.

Join Here: <https://band.us/n/aca8bdC9f9O8M>

A chat for each invitational will be created at the start of the 2025-26 season. These chats will include videos of rehearsal when needed, costume photos and details about required shoes, accessories, etc., and will be essential for easy, clear communication, specifically about one dance. The rehearsal schedule for all private lessons, rehearsals, make up classes, breaks, etc will all be in one band group.

Other Opportunities may include a pool party, fall social, holiday party, and spring social ~ adults only socials are welcome, too!

Performance and Competition Appearance

Hair and Cosmetic Requirements

Dancers will wear their hair in a center parted, low bun complete with a hair net. This is the requirement for all team dancers, at all performance opportunities including competition. When a choreographer requests an alternate hairstyle for an individual dance, the team coordinator will make the final decision based on the lineup/schedule for each event.

This is the required make up for the **Mini Stepper Dance Team**

Top & Bottom

INSTRUCTIONS FOR APPLICATION Before applying any makeup, be sure the face is clean. Use a moisturizer to begin. The skin wants to soak up anything it can, so feed it moisturizer so it doesn't soak up the foundation.

Foundation: Should be one shade darker than YOUR skin tone. YOUR Skin tone is the color of your NECK - NOT YOUR HAND!! Spread all over the face and part of the neck to blend in (after you apply moisturizer). Eyelids and lips, too.

Eye Shadow: The lightest color should be applied to the top lid generously. Then blow off the excess. The medium color should be applied between the crease and the eyebrow generously and then blow away excess. This widens the eyes. The darkest color should be applied to the crease, thin but dark.

Eyeliners: EVERYONE MUST wear eyeliner on top and bottom. If you prefer the liquid route, buy Revlon Colorstay Liquid Eye Pen (001). For those of you who prefer pencil be sure to keep it thin and close to (above/below) the lashes. DO NOT extend the line beyond the lashes.

Blush: Apply the medium color on the cheek from the cheekbone toward the top of the ear (TOWARD, NOT INCLUDING). Apply the darkest color beneath the first color to give a shadowy texture. Apply the lightest color above the first color, under the eyes, moving toward the nose.

Lipstick/Lip Liner: Lip liner is applied to the outer ridge of the lips. ALL THE WAY AROUND. This keeps the lipstick from bleeding into the skin outside of the lips. You will need 2 coats of lipstick. Do them fast, colorstay dries quickly and gets tacky. The shine should be applied JUST BEFORE the performance. You may apply the shine multiple times.

Competition Scoring

Each competition has their own unique scoring rubric. They can be very confusing, and most families find that understanding comes after one full season of competition, sometimes two when a dancer's first year has limited opportunities. We recommend obtaining an event program for specifics, and keep in mind that they can also be confusing.

The following is a guideline for placement of all competitors. These guidelines have been established utilizing more than 10 years of competitive experience.

Good Competitor Expectation: 267-278.9 points out of a possible 300

This is an average score of 89.0 - 92.9 from each judge. This is an appropriate goal for any dancer on our team. A soloist should consistently achieve 92.9 or higher from all judges, and place in the top 3 before moving to the next competition level. All dances that score at this level are considered debut, novice or beginner in level.

Great Competitor Expectation: 279-287.9 points out of a possible 300

This is an average score of 93.0 - 95.9* from each judge. A soloist should consistently achieve 95.9 or higher from all judges, and place in the top 3 before moving to the next competition level. All dances that score at this level consistently are considered intermediate level. **This is the expectation for any dance that will compete at the advanced level.*

Elite Competitor Goal: 288-300 points out of a possible 300

This is an average score of 96-100 from each judge. You may compete your entire life and achieve this result just once. This score is reserved for the very best of competitors, on their very best days.

Competition Performance Levels

Performance levels provide the opportunity to compete against other dancers with similar experience and training. Experience includes hours of dance training each week and years of competition experience. Although the level guidelines are similar for each event, they are not identical. Your dancer will be entered according to the guidelines provided by the event. It is never appropriate to question the team coordinator regarding your dancer's performance level once the competition season has started. Keeping a journal of your dancer's scores from each event will provide the knowledge you need to trust and support the placement of your dancer each season. Questions about placement can be discussed with the team coordinator or studio owner each June, at the time of invitational announcement.

Prizes, Awards & Invitations from Competitions/Conventions

Immediately following an event (within 15 days), dancers who receive special awards or invitations must submit, in writing, to team@lerouxdance.com their intent to utilize their prize. The team coordinator will confirm, register for the event or provide details for registration, and share all necessary details. In some instances, students may be permitted to enjoy their award in the absence of a LeRoux representative. Speak with the studio director for permission and details regarding these opportunities.

FAQs

Sample of Competition Age Divisions

Age divisions are generally based on the performer's age as of January 1 in the year that the event will take place. If we attend a competition in November, keep in mind that placement may be according to your dancer's age in January of the upcoming year.

Some competitions keep things easy with age divisions like this:

| | |
|--------|---------------------|
| Mini | 8 years and younger |
| Junior | 9-12 years |
| Teen | 13-15 years |
| Senior | 16-19 years |

Others have more divisions for scheduling, and less for overall awards, like this:

| | | | | | |
|-----------|--------|------------|--------|-------------|--------|
| 4 & Under | Petite | 9-11 years | Junior | 17-19 years | Senior |
| 5-6 years | Petite | 12-14 yrs | Teen | | |
| 7-8 years | Petite | 15-16 yrs | Senior | | |

Again, we understand that this can be very confusing, and most families find that understanding comes after one full season of competition, sometimes two when a dancer's first year has limited opportunities. We recommend obtaining an event program for specifics, and remember that your team sibling family may be able to provide better explanations than the program.

Dancers age 8-9 at the time of the audition

What is an Optional Convention?

New or young team dancers may consider attending optional conventions. These are dance classes offered by industry professionals in one or two day events. Conventions are a great opportunity to expose your dancer to unknown instructors and dance styles. Conventions will also be a key indicator of your child's natural ability to both learn and perform choreography quickly. These events can also increase your dancer's stamina.

How will additional classes benefit my dancer?

The greatest success is achieved by those who **commit to excellence in basic technique**. In every sport, this is where muscle memory is created. Those who perfect their basic skills make their talent look easy. For dancers, ballet classes are the foundation for skill building. Experts recommend that **all growing athletes** study a **variety** of techniques. Just like running, swimming and basketball require unique skill development, so do ballet, tap, jazz and lyrical. Providing a variety of dance growth opportunities is proven to help protect growing athletes from burnout and injury.

All dancers can enroll in classes they have already taken. Repetition is the best way of building skills. Dancers who enroll in more than one class a week of the same genre, can be recommended for classes above their current level. When these recommendations occur, dancers **may select** a recommended class **in addition to** their required technique classes, **not in place of** their required technique class.

Enrollment in all classes can assist dancers with **choreography retention, stamina and overall conditioning** of their body. All of these skills are **essential** for competitive success.

We realize the sacrifice your family will make in order to provide an opportunity for success. We have a great team of professionals dedicated to the success of your child, and we strive to exceed your expectations!
