COMPANY PROFILE

Committed to Delivering Quality Service

NB Trades and Services is a quality focused superior residential, industrial and commercial refrigeration, electrical and air conditioning company that operates on the Darling Downs and across Regional Queensland.

We are a proud Queensland based company specialising in customised refrigeration projects, fit for purpose functional air conditioning and turnkey electrical services; we have developed a sound reputation for delivering practical solutions and quality outcomes.

Our proven expertise is working efficiently in complex and demanding environments. We manage each project on time, within budget and with a definite end goal of exceeding our clients expectations.

NB Trades and Services employees are dedicated to providing exceptional service to the highest quality and harness a philosophy of integrity and honesty. Each team member is knowledgeable in their field and works closely with clients to deliver cost-effective solutions.

Our track record is supported by our ability to deliver our clients innovative solutions, best value and simplicity. We pride ourselves on our projects being delivered safely using the latest work methods. Put simply; we are dedicated to minimising risk and maximising performance by following clear safety due diligence at all times, ultimately adding value to new-build and existing refrigeration, electrical and air conditioning projects.

Neal Berry, Founding Director

Building stronger relationships, valuing every client partnership.

With over 30 years experience in the Commercial Refrigeration industry, Neal Berry has been the driving force behind NB Trades and Services. He is client focused and consistently delivers projects of the highest standard, overseeing all aspects of management.

As NB Refrigeration and NB Trades and Services founder, Neal takes great pride in our people and our steadfast approach to quality. His technical

experience means he is very much aware of day to day operations. Neal is constantly assessing industry processes, ensuring that project budgets are considered and deliverables are achieved.

Rob Baryla, Director

Passionate about delivering customised projects of the highest standards, with a firm commitment to the leadership of our people.

As a pivotal part of the NB Trades and Services team, Rob brings his strength in leadership to every project and an ability to exceed expectations. Being both licensed and trade qualified in the Engineering Mechanical Refrigeration field, he has intimate knowledge and understands the complexity of projects.

An accomplished operations executive with a successful track record overseeing:

- Performance management
- Management proficiency
- Staffing
- Coordination
- Coaching
- Developing standards
- Financial planning and strategy
- Process improvement
- Decision making
- Strategic planning
- Quality management in company and franchise operations

Rob stays abreast of technical and professional knowledge benchmarking state of the art practices by attending National and Global trade and industry forums. He is committed to the core business of NB Trades and Services in delivering the highest standards and quality projects for our clients.

OUR PEOPLE

Lifting The Benchmark

Providing the highest standards in refrigeration, electrical and air conditioning projects, positive in developing good practices.

In a competitive market, we strive to be leaders in providing flexible, adaptable refrigeration, electrical and air conditioning solutions. Our team is highly experienced in all types of refrigeration, electrical and air conditioning projects and committed to tailoring our services to meet client needs. They are also focused on attention to detail in every aspect of any project working towards efficient outcomes.

The workmanship that defines our people is built on the foundations of:

- Employing qualified and skilled tradespeople with extensive refrigeration experience
- Training apprentices and developing skilled tradespeople
- A culture of open lines of communication from beginning to completion and in future relationships

We value our people and are committed to encouraging greater skill and knowledge. NB Trades and Services conducts regular training sessions ensuring all team members are current with industry regulations and equipment. Our teams can install and commission your assets into service.

Quality

Details matter, nothing less.

Doing it right the first time every time, NB Trades and Services integrates quality control to all facets of the business with diligent planning and stringent reporting measures.

Safety

Evolving work environment and safety culture.

The safety of our people, clients and community is paramount; we ensure risk-management is part of our day to day operations and that all team members are trained. We promote open communication ensuring everyone is working safely. Our equipment is checked, serviced and maintained to the highest standards. Identifying and managing any safety hazards during work is effective in accordance with our safety management plan. Everyone employed at NB Trades and Services is responsible for promoting a safe working culture by raising workplace hazards and instigating correct safety procedures.

Environment

Consider the impact of our work on the environment.

NB Trades and Services considers environmental factors and possible outcomes for our clients without compromising the environment. We maintain all our work practices are of a high standard and environmentally friendly.
