

THE CIRCULAR OFFICE FURNITURE PARTNER

Give your office furniture a second life

Clearance, refurbishment, resale, recycling, with the documented ESG impact your reporting needs.

Trusted by UK businesses since the 1980s

Office change leaves a hidden cost, and a growing liability

Every move, refit or downsize creates surplus furniture. The default route, skips and landfill, is expensive, wasteful, and harder to justify every year as ESG reporting bites.

62 kg CO₂e per chair

Embodied carbon wasted when a reusable office chair is sent to landfill.

Disposal is a cost

Skip-and-landfill clearance returns nothing to your business.

Now in scope

Furniture sits inside CSRD and SECR Scope-3 reporting.

Still reusable

Most redundant office furniture has years of life left in it.

WHO WE ARE

We keep furniture in use, not in landfill

Founded by David Coggin in the 1980s and now led by his son Sam, we're your nationwide partner for the whole furniture lifecycle, turning what you would throw away into cost savings, carbon savings and reportable impact.

One partner

Clearance to reporting, end to end

Documented

WTNs and certificates on every job

National

UK coverage, one point of contact

Chosen by **JLL** **Sky** **CBRE** and organisations across the UK

Since the 1980s

office furniture, UK-wide

4.9 / 5

from verified reviews

Third generation

family-run, Preston

Six services, one circular loop

Clearance & Removal

Fast, fully documented clearance of redundant furniture from your sites.

Resale & Supply

Quality second-life furniture from premium brands, up to 80% less than new.

Refurbishment

Restore tired furniture to like-new, cheaper and greener than replacing.

Recycling

Responsible recycling with full landfill-diversion reporting and WTNs.

Reuse Credit

Turn the value locked in your surplus into credit toward future services.

Donation

Redistribute usable items to charities, schools and community groups.

The circular model

Reuse comes first. Landfill is not an option. Every item takes the highest-value route, and you get the impact data at the end.

- **Cost recovered, not spent on skips**
- **Carbon kept in use vs buying new**
- **ESG-ready documentation, every time**

Real impact, documented for your ESG report

OUR TRACKED IMPACT · 2017 TO JUNE 2026

Office chairs refurbished, not replaced

£2,640 saved

A second life, not landfill

Every project documented end to end. Each client receives a Savings Certificate: items kept from landfill, carbon saved and money saved, ready for tenders and ESG reporting.

WHAT OUR CLIENTS SAY

Rated 4.9 / 5 from verified reviews

"The level of quality and professionalism surpassed our expectations. Their dedication and precision speak volumes about their expertise."

Refurbishment project client

"Exemplary from the initial quote to the quality, cost and delivery of the furniture, and their after-care service."

Office supply client

Trusted by **JLL · Sky · CBRE · Lloyds Bank · Lancaster University · Lancashire Teaching Hospitals NHS · Lincolnshire County Council**

Surplus that pays you back

High-value surplus does not have to go to waste, or for cash. We turn it into Reuse Credit:

It offsets your clearance or recycling cost first

Any remaining value becomes credit on your account

Spend it on future Coggin services, never cash

Circular, and commercially yours.

YOUR REUSE CREDIT

£ 3,350

available to offset your next refurbishment, supply, clearance or recycling

- ✓ **Surplus collected**
- ✓ Clearance cost offset
- ✓ Balance becomes credit

For larger, FTSE-scale organisations

When you manage furniture across a large, multi-site estate, the portal brings it into one place, an asset you can see and act on, not a mystery in the basement.

Track your estate building-by-building

Estate Furniture · Impact · Documents · Reuse Credit

Wherever furniture moves, we make it work harder

Office move or fit-out

Clear the old, supply second-life for the new, all fully documented.

Downsize or consolidate

Right-size your estate and recover value from what you no longer need.

Refresh without replacing

Refurbish what is tired; buy quality second-life for the rest.

Ongoing estate management

Track, reuse and report across your whole property portfolio.

Built for Facilities, Procurement and Sustainability teams.

WHY COGGIN SOS

One partner. Real proof. Sustainability, not just a skip.

One accountable partner

Clearance to reporting, from a single point of contact.

Documented impact

Every job evidenced with WTNs and savings certificates.

Sustainability-first

We compete on carbon and value recovered, not lowest price.

A living record

For larger, multi-site estates, your portal keeps everything up to date.

GETTING STARTED

Three steps to a second life

1

Book a free assessment

We look at your estate, your timescales and your goals.

2

We plan the circular route

The best mix of reuse, resale, refurbishment and recycling.

3

We deliver and report

Work done, value recovered, impact documented for you.

No procurement marathon. We do the heavy lifting so your estate is working for you fast.

Let's give your furniture a second life

Book your free estate assessment, and see what your surplus could give back.
