

Turnbull Heating & Air

Experienced Commercial HVACR Service Technician

Full-time

ABOUT US

Turnbull Heating & Air is a leading commercial heating, air conditioning, and refrigeration company dedicated to providing top-tier HVAC solutions to businesses in Upstate New York. We take pride in our high-quality workmanship, commitment to customer satisfaction, and a strong team-oriented work environment. We are one of the few remaining locally owned family businesses dedicated to our industry.

POSITION OVERVIEW

We are seeking a skilled and experienced Commercial Service Technician with a minimum of five years of experience in the field. The ideal candidate will be responsible for servicing and maintaining commercial HVAC and refrigeration systems in commercial and light industrial applications. This role requires technical expertise, attention to detail, and the ability to work independently or as part of a team.

KEY RESPONSIBILITIES

- Take a lead role on projects, giving direction and support to the assigned team, working alongside our project managers.
- Maintain, diagnose and repair commercial HVACR equipment, including rooftop units, split systems, chillers, boilers, and refrigeration systems.
- Read and interpret schematics, and technical specifications.
- Proficiency with low and line voltage diagnostics and multimeter usage.
- Ensure all services comply with local building codes, safety regulations, and company standards.
- Ladder usage, moderate roof work, lifts, and other accessibility equipment.
- Perform brazing, soldering, and pipe fitting as needed.
- Maintain an organized company provided vehicles with tools and inventory.
- Provide excellent customer service and maintain professional relationships with clients.
- Complete required documentation, such as job reports and material orders.
- Troubleshoot and resolve issues efficiently.
- Maintain a clean and safe work environment.

QUALIFICATIONS & REQUIREMENTS

- Minimum 5 years of experience in commercial HVAC/R service.
- Strong knowledge of HVAC systems, including RTUs, VRF, boilers, chillers, and refrigeration.
- Experience with brazing, soldering and pipe fitting.
- Ability to use hand and power tools safely and effectively.
- EPA Universal Certification preferred.
- OSHA 10 or 30 certification is a plus.
- Ability to lift 50+ lbs and work in various conditions, including heights and tight spaces.
- Strong problem-solving skills and attention to detail.
- Valid driver's license with a clean driving record.

COMPENSATION & BENEFITS

- Competitive pay based on experience.
- Health, dental, and vision insurance.
- Retirement plan with company match.
- Paid time off and holidays.
- Company-provided vehicles, tools and uniforms.
- Ongoing training and career growth opportunities.

How to Apply: If you're a skilled Commercial HVAC Technician looking for a stable, rewarding career with a growing company, we'd love to hear from you! Apply today by completing our online application or by calling our office at 585-501-9100.
