

Academic Procedures

LOWER SECONDARY

**Cambridge
Stages 7-9**

Welcome to the Lower Primary section of Evolve Online, where we are committed to providing a robust and engaging educational experience for our Cambridge students.

We follow Cambridge-endorsed textbooks, seamlessly woven into our interactive online material.

Using MIT's Mastery system, we help students understand their strengths and areas for growth, both in live lessons and through independent work at home, which forms the solid base of our students' learning journey at Evolve Online.

We do start preparing our students for the more rigorous testing environment of the IGCSE, by formally introducing three key checkpoints:

- Diagnostic Task: Conducted at the beginning of the year to assess initial understanding.
- Mid-Point Task: Administered mid-year to monitor progress and adjust learning strategies.
- Progression Task: Held at the end of the year to evaluate overall development and mastery of the curriculum.

At Evolve Online, we empower students to thrive in their learning journey, both during live sessions and through their work at home by utilizing critical thinking.
