

Academic Procedures

UPPER PRIMARY

**Cambridge
Stages 4-6**

Welcome to Upper Primary at Evolve Online, the gateway to our Cambridge department! Here, we embark on an exciting journey of critical thinking and skill-building. Our focus is on nurturing students' abilities to analyse material, share their opinions, and provide well-reasoned arguments.

Throughout the year, students engage in Mastery Tasks, which are central to our curriculum. We also conduct Cambridge assessments at the beginning, middle, and end of the year.

These assessments are designed to help students develop effective strategies and approaches to formal tasks, setting them up for success in their Cambridge journey.

Our lesson content is based on Cambridge-endorsed textbooks, ensuring academic integrity. As an online school, we prioritize building strong connections with our students, tailoring lessons to their interests and academic levels to keep them engaged and motivated.

Join us at Evolve Online, where learning is an adventure!
