ABOUT US

MyController simplifies Growth through Acquisition by providing expert guidance, streamlined processes, and tailored support for SMEs. We help you identify the right targets, manage due diligence, and ensure a smooth transition—maximising value and minimising risk

WHY MYCONTROLLER?

At MyController, we bring deep experience in Mergers & Acquisition, financial strategy, and operational integration. Our focus is always on three things:

PROFIT. CASH. VALUE.

We don't just help you buy a business—we help you buy the right business, at the right price, and integrate it in a way that drives sustainable value.

Whether you're a first-time acquirer or a seasoned investor, we act as your strategic finance partner throughout the journey.

STRATEGIC PLANNING & BUSINESS CASE

We define goals, model ROI, and align acquisitions with long-term value through clear, data-driven strategies.

TARGET IDENTIFICATION & EVALUATION

We identify and assess acquisition targets through market scanning, fit analysis, and strategic outreach support.

WORKING WITH CORPORATE FINANCE

We support smooth acquisitions by guiding deal structuring, advisor coordination, and aligning execution with strategic goals.

FINANCIAL DUE DILIGENCE

We validate deals with solicitors through financial reviews, risk analysis, valuation testing, and readiness assessment.

POST-ACQUISITION INTEGRATION

We unlock post-deal value by integrating systems, aligning teams, and tracking synergies and performance improvements.

GROW THROUGH ACQUISITION

Acquisition is one of the fastest ways to scale your business—whether you're looking to expand into new markets, acquire talent or technology, or increase your valuation. But successful acquisitions don't happen by chance. They require clear strategy, rigorous analysis, and seamless integration.
