PRESENTATION INFORMATION

DESCRIPTION & CRITERIA

As a Getting to Zero Tech Forum sponsor you get 5 minutes to present the latest innovations in building technology accelerating sustainable and regenerative design, construction, and operations. Presentations should focus on the latest innovations advancing a built environment of net positive systems of water and energy, of financial tools and opportunities, or of ecological and human health. Focusing on what's innovative and how it's applicable to real world challenges that our audience faces in their projects is preferred to simple product overviews. Below is more details in how to do this:

OBJECTIVE:

Your presentation should showcase how our audience can take action today in using your product or service to hit their goals for high-performance projects in Illinois.

CRITERIA:

1. **Your presentation must be within 5 minutes.** This presentation will be timed live.
2. **Your presentation must be related to at least one of the below focus options:**
 - Decarb Planning & Retrofits
 - Envelope & Enclosure
 - Energy Production & Storage
 - Finance & Incentives
 - Health & Comfort
 - Materials
 - MEP Systems
 - Operations & Maintenance
 - Information Resources
 - Software & Technology
3. **Your presentation must be actionable for our audience(s).** See below list of our audiences.

AUDIENCE:

Our typical Summit/Forum primary audience is made up of architects, engineers, and sustainability consultants. Secondary audience is made up of building owners, operators, contractors, manufacturers, and utilities.
