Key Technology Partnerships

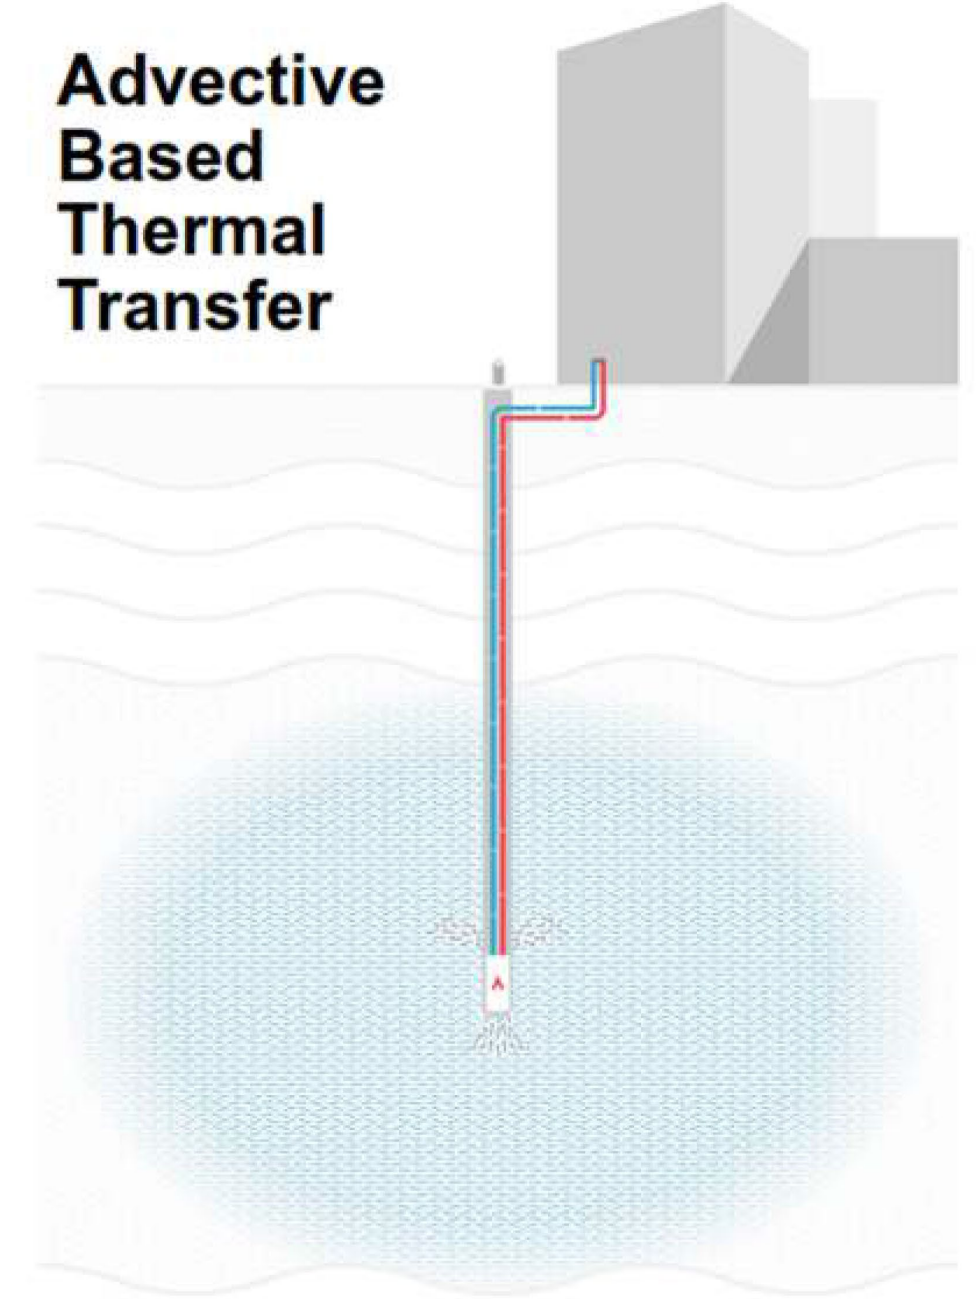

Darcy Geothermal System

- ✓ Standard water well utilizing approved construction materials
-  A heat exchanger is installed into a water well
-  Building side loop utilizes water
-  Number of wells scales to meet heating & cooling needs, 250+ Tons per well
-  Zero water consumption from groundwater

Conductive Thermal Transfer

Advective Based Thermal Transfer

Key Technology Partnerships

ANNEXAIR

Biocomposite Casing

First rust-free casing made from innovative unibody panels that provides efficiency, sustainability and hygienic properties.

35,000

RECYCLED PLASTIC BOTTLES
ARE USED TO INSULATE
THE UNIT SHOWN

Key Technology Partnerships

Central Bank Mini (P58) thermal battery

High density heat storage for commercial and industrial solutions.
