However, many cemeteries require that you have such a container so that the grave will not sink in. Either a grave liner or a burial vault will satisfy these requirements.

WHAT IS A MONUMENT

A monument is far more than a means of marking the Resting Place of an individual or a family.

It is a symbol of devotion. It is a tangible expression of the noblest of all human emotions: LOVE.

It should not reflect sorrow but rather the long years of warmth and affection typical of the American family.

A monument is built because there was Life not a Death & with intelligent selection & proper guidance should inspire Reverence, Faith & Hope for the living.

As an essential part of our American way of life, a monument should speak out as a voice from yesterday and today to ages yet unborn -
