

# The Problem Your Clients Have

(That Isn't Your Job to Fix)

---

Your clients' websites may be slow, insecure, and running on shared hosting that undermines every dollar they spend on SEO and marketing. They come to you for help — but web infrastructure & development isn't what you do.

## What Stacq Does

---

We take your clients' existing marketing websites and migrate them onto enterprise-grade managed infrastructure — what we call a Site Flip.

What's Included	Details
Full Site Migration	Text, media, forms, structure — all transferred
Complimentary Design Refresh	Optional styling modernization during the flip — a facelift, not a rebuild
SEO-Safe Guarantee	On-page SEO, meta tags, and URL structures preserved
Managed Hosting & SSL	Enterprise infrastructure, always-on SSL
AI-Ready Architecture	Optimized for AI search engines (ChatGPT, Perplexity, Google AI Overviews) and safe for AI agent content editing
24/7 Monitoring	Uptime, SSL, forms, phone numbers, and broken pages — automatically tracked
Automated Backups	Backup on every publish, with one-click restoration

Edit with Confidence	Role-based permissions let clients or AI agents update content without breaking layouts
Unified Dashboard	Site analytics, conversion tracking, and search engine performance — all in one place
Ongoing Maintenance	Updates, security, and support — all handled
100% Ownership	Clients own their domain, content, images, and brand

## How the Partnership Works

You refer a client → We flip their site → They get a better website → You earn revenue

It's that simple. You stay focused on SEO and marketing. We handle the infrastructure. Your clients stay happy — and stay with you longer because their site actually performs.

 90-Day Free Trial — No payment or credit card required upfront. Your clients try it risk-free. *(Limited time offer - will be reduced/removed as we grow - may not still be available depending on when you sign up)*

Turnaround: 5–7 business days (Basic) · 10–14 business days (Advanced)

It takes us about 1-2 business day(s) to flip a "Basic" site, and about 2-3 business days for an "Advanced" site. The turnarounds above are simply quoted to provide some wiggle room.

## Your Referral Revenue

Choose the payout model that works best for you:

Model	Basic Sites	Advanced Sites
Monthly Recurring (10%)	\$9.90/mo per site	\$14.90/mo per site
Annual Payout	\$150 per site/year	\$200 per site/year

💡 Example: Refer 10 Basic clients on the monthly model → \$99/mo passive income (\$1,188/year). That's free revenue for sending clients to a service they already need.

## Who's a Good Fit?

---

Stacq is built for SMB marketing and lead-gen websites — the exact clients you're already serving.

✅ Great fit:

- Informational sites (Services, About, Blog, Contact)
- Lead gen sites (Forms, scheduling, chat widgets)
- Sites with 1–75 pages
- Sites with up to 6 third-party integrations

❌ Not a fit:

- Web apps with user authentication
- Integrated e-commerce stores
- Sites with 76+ pages
- Custom server/compliance requirements
