Partner Marketing Materials

Ready-to-use materials for you to send directly to your clients. Also accessible from the partner dashboard.

Material 1: Email Template

Copy/paste and send from your own email. Fill in `{{brackets}}` or auto-populate from the partner dashboard.

Subject: We've partnered with a team that can make your website faster, more secure, and easier to manage

Hi {{client_name}},

As your {{seo/marketing}} agency, we're always looking for ways to get you better results. One of the biggest factors we see holding clients back is website infrastructure — slow load times, security issues, and hosting platforms that are expensive to maintain and difficult to update.

That's why we've partnered with Stacq.io.

Stacq takes your existing website and migrates it onto enterprise-grade managed infrastructure — what they call a "Site Flip." Same content, same look (with an optional design refresh), but faster, more secure, and fully managed.

Here's what you'd get:

- Your existing website migrated in as little as 2 business days (dependent on current demand)
- All your current content, structure, and SEO preserved
- An optional complimentary design refresh to modernize your site's look
- AI-ready architecture — optimized for AI search engines (ChatGPT, Google AI Overviews, Perplexity) and safe for AI agents to edit content without breaking layouts
- 24/7 monitoring of uptime, SSL, forms, phone numbers, and broken pages — so you never have a dead form or a 404 error go unnoticed

- Automated backups on every publish, with one-click restoration (manual backups also available)
- Edit with confidence — role-based permissions mean you (or your AI tools) can update content without risk of breaking anything
- All your data in one place — site analytics, conversion tracking, and search engine performance in a single dashboard
- Plans starting at $99/mo with a 90-day free trial *(limited time offer - will be reduced/removed as we grow - may not still be available depending on when you sign up)*
- 100% ownership of your domain, content, images, and brand

We've attached a one-pager with more details. If you're interested, you can check if your site qualifies in under 2 minutes here: 👉 www.stacq.io

Happy to answer any questions!
