

# Is Your Website Holding Back Your Business?

Your marketing agency is working hard to drive traffic to your website. But if your site is slow, insecure, or expensive to maintain — those efforts are being wasted.

## What Stacq Does

We take your existing website and migrate it onto enterprise-grade managed infrastructure — what we call a Site Flip. Same content, same look, better everything.

<b>What's Included</b>	
Full Site Migration	Your text, media, forms, and structure — all transferred
Optional Design Refresh	A complimentary styling modernization to bring your site up to current standards
SEO Preserved	On-page SEO, meta tags, and URLs stay exactly the same
Managed Hosting & SSL	Enterprise infrastructure, always-on security
AI-Ready Architecture	Optimized for AI search engines and safe for AI agent content editing
24/7 Monitoring	Uptime, SSL, forms, phone numbers, broken pages — all watched automatically
Automated Backups	Backup on every publish. One-click restore if anything goes wrong

Edit with Confidence	Role-based permissions let you or AI agents update content without breaking layouts
Unified Dashboard	Site analytics, conversion tracking, and search engine performance in one place
Ongoing Maintenance	Updates, security, and support — all handled for you
100% Ownership	Your domain, content, images, and brand — always yours
