

Offsite Fabrication

JSIS is a leading provider of custom offsite fabrications. Although we are specialists in high density polyethylene (HDPE) we can also offer fabrication on Steel items and additionally complete Industrial Tiling, all at our North Mackay facility.

We have the ability to design and supply high quality fabrications by following our strict Quality Assurance processes and investing in our skilled team members.

Supply of Pipe & Fittings

JSIS is a quality supplier of a large range of fittings, valves, flanges, gaskets, and fasteners. We are confident we can meet the needs of your project requirements. We are experienced in finding suitable products for our Client's needs. If we don't have it in stock in our North Mackay Facility, rest assured we can source it for you.
