15 of 21 DTIs

4.6 visits

To heal a pressure wound

Vohra national avg: 5.07

349

Bedside physician wound visits

in the past 12 months

YOUR DISCHARGE CHALLENGES, ANSWERED

“Will they accept my complex wound patient?”

Yes. Stage 3–4 pressure injuries, DTIs, diabetic and vascular wounds are **managed in-house**.

“Will this patient bounce back to my hospital?”

CoE status requires wound-related hospitalizations **under 1% per quarter**. Elk River of Ardmore had **zero**.

“Who carries the wound plan after discharge?”

Weekly Vohra physician rounds plus a **Wound Care Certified nurse 7 days a week**.

“Will my patient need wound-clinic trips?”

No transport needed. Sharps debridement, UltraMIST® and MolecuLight® are **delivered on-site**.

ADVANCED WOUND CARE, ON-SITE

Specialist wound care without the wound-clinic trip

- ◆ **Physician-performed sharps debridement**, the gold standard, at the bedside
- ◆ **UltraMIST® ultrasound therapy** for stalled, hard-to-heal wounds
- ◆ **MolecuLight® imaging** to see bacterial load in real time

WHAT THE CENTER OF EXCELLENCE SEAL REQUIRES

Earned yearly — every criterion must be met

- ★ Wound-related hospitalization rate under 1% each quarter
- ★ Wound Care Certified nurse available 7 days a week
- ★ Quarterly QAPI meetings with comprehensive case reviews
- ★ Average of five weekly wound consults for timely intervention

Refer your next wound patient with confidence.
