ProCare Rx Delivers Comprehensive Workers' Comp Solutions

To address the full scope of workers' compensation claims with stringent controls for safety and cost optimization, ProCare Rx offers an end-to-end PBM solution that reduces cost, increases program penetration, and achieves greater operational efficiencies across the injured worker continuum.

ProCare Rx provides full-service, in-house claims management based on over 30 years of best practices and millions of claims transactions. Direct relationships with our retail pharmacy chains and independents provide coordinated and proactive control from the first transaction through all stages of the injured worker case — with no out-of-pocket expenses for the injured worker and a customizable workers' compensation-specific formulary.

Robust IT capabilities provide a dynamic adjudication platform that instantly processes the checks and balances for eligibility, drug utilization reviews, authorizations, appropriateness, and generic fulfillment.

ProCare Rx applies an exclusive *smart* methodology to process injured worker claims—managing cost and risk at every point. Our real-time pharmacy claims processing system gives employers unlimited plan design options, multiple injury formulary management, extensive reporting packages, convenient access to our network pharmacies, a 24/7/365 US-based Customer Care Center, and a secure, real-time management portal.

We take great pride in serving every customer—providing an individual customer experience formulated through a thorough understanding that not all companies operate the same way. Our dynamic eligibility and plan design options deliver a customized workers' compensation program for any size employer group.
