

Step by Step Instructions

1. From the Main Menu select "Video"

2. The Playback menu should open up and look like this:

3. On the right hand side, there will be a calendar. Select the day that you wish to play back video.
Below the calendar is a list of all the cameras/channels. Check the box next to all the cammeras/channels you would like to play back video from.

- Days that have a white dot underneath them have recordings.

4. The video footage will appear on the timeline at the bottom of the screen. It will be color coded to match the types of video that were recorded. (See the Legend at the bottom of the screen.)

5. Check or uncheck each type of recording that you want to view. Check the Sync box if you would like to sync playback up on all channels you are viewing.

6. Double click on the graph at the bottom to begin playing back video.

The screenshot displays a video management software interface with a dark theme. At the top, there are tabs for 'MANAGEMENT' and 'VIDEO', with 'VIDEO' being the active tab. The top right corner shows the date and time: '2018-04-05 06:29:47 Thursday'. Below the tabs, there are four video feeds arranged in a 2x2 grid. The top-left feed is labeled 'A82AG5V' and shows a timestamp of '2018-04-04 09:08:22'. The top-right feed is labeled 'A83ALBZ' and shows a timestamp of '2018-04-04 09:08:21'. The bottom-left feed shows a live video feed of an office interior with a desk, a sofa, and a person standing. The bottom-right feed is currently blank, showing a camera icon. To the right of the video feeds is a 'Record' section with a calendar for 'Apr 2018' and a 'Channel List' table. The 'Channel List' table has columns for channel names and a status column. The bottom of the interface features a timeline with a green bar and a play button. The timeline has a duration of '00:00:00 - 23:59:59'. At the very bottom, there are several icons for 'Play', 'Sync', 'All', 'General', 'Alarm', 'Motion', 'Intel', and 'POS'.
