

Online Safety Policy

St. Thomas More's Catholic Primary School

Approved by the Governing Body

Autumn 2025

Next Review:

Autumn 2026

*Appendices to follow in line with trust updates

St. Thomas More's Catholic Primary School

Online Safety Policy

Our Mission Statement

As we walk together with Jesus we love, live and learn.

Scope of the Policy

This policy applies to all members of the *school* community (including staff, students, pupils, volunteers, parents / carers, visitors, community users) who have access to and are users of school Computing systems, both in and out of the *school*.

The Education and Inspections Act 2006 empowers Headteachers to such extent as is reasonable, to regulate the behaviour of pupils when they are off the *school* site and empowers members of staff to impose disciplinary penalties for inappropriate behaviour. This is pertinent to incidents of cyber-bullying, or other Online Safety incidents covered by this policy, which may take place outside of the school, but is linked to membership of the school. The 2011 Education Act increased these powers with regard to the searching for and of electronic devices and the deletion of data (see appendix for template policy). In the case of both acts, action can only be taken over issues covered by the published Behaviour Policy.

The *school* will deal with such incidents within this policy and associated behaviour and anti-bullying policies and will, where known, inform parents / carers of incidents of inappropriate Online Safety behaviour that take place out of school.

Roles and Responsibilities

The following section outlines the Online Safety roles and responsibilities of individuals and groups within the *school*:

Governors:

Governors are responsible for the approval of the Online Policy and for reviewing the effectiveness of the policy. This will be carried out by the *Governors* receiving regular information about Online Safety incidents and monitoring reports. A member of the *Governing Body* has taken on the role of *Online Safety Governor* (**Simon Fenning**). The role of the *Online Safety Governor* will include:

- *regular meetings/discussion with the Online Safety Coordinator*
- *regular monitoring of Online Safety incident logs*

- *regular monitoring of filtering / change control logs*
- *reporting to relevant Governors / committee / meeting*

Headteacher and Senior Leaders:

- *The Headteacher has a duty of care for ensuring the safety (including Online Safety) of members of the school community, though the day to day responsibility for Online Safety will be delegated to the Online Safety Coordinator.*
- *The Headteacher and (at least) another member of the Senior Management Team should be aware of the procedures to be followed in the event of a serious Online Safety allegation being made against a member of staff. (see flow chart on dealing with Online Safety incidents - included in a later section - "Responding to incidents of misuse" and relevant Local Authority HR / other relevant body disciplinary procedures). The Headteacher/ Senior Leaders are responsible for ensuring that the Online Safety Coordinator and other relevant staff receive suitable training to enable them to carry out their Online Safety roles and to train other colleagues, as relevant.*
- *The Headteacher / Senior Leaders will ensure that there is a system in place to allow for monitoring and support of those in school who carry out the internal Online Safety monitoring role. This is to provide a safety net and also support those colleagues who take on important monitoring roles.*
- *The Senior Management Team will receive regular monitoring reports from the Online Safety Coordinator.*

Online Safety Coordinator:

- *leads the Online Safety committee*
- *takes day to day responsibility for Online Safety issues and has a leading role in establishing and reviewing the school Online Safety policies / documents*
- *ensures that all staff are aware of the procedures that need to be followed in the event of an Online Safety incident taking place.*
- *provides training and advice for staff*
- *liaises with the Local Authority / relevant body*
- *liaises with school technical staff*
- *receives reports of Online Safety incidents and creates a log of incidents to inform future Online Safety developments*
- *meets regularly with Online Safety Governor to discuss current issues, review incident logs and filtering / change control logs*
- *attends relevant meeting / committee of Governors / Directors*

- reports regularly to Senior Leadership Team

Network Technical staff:

The *Network Manager / Technical Staff / Subject Lead for Computing* is responsible for ensuring:

- that the *school's* technical infrastructure is secure and is not open to misuse or malicious attack
- that the *school* meets required Online Safety technical requirements and any *Local Authority / other relevant body* Online Safety Policy / Guidance that may apply.
- that users may only access the networks and devices through a properly enforced password protection policy, in which passwords are regularly changed
- the *filtering policy (if it has one), is applied and updated on a regular basis and that its implementation is not the sole responsibility of any single person*
- that they keep up to date with Online Safety technical information in order to effectively carry out their Online Safety role and to inform and update others as relevant
- that the use of the *network / internet / Virtual Learning Environment / remote access / email* is regularly monitored in order that any misuse / attempted misuse can be reported to the *Headteacher/ Senior Leader; Online Safety Coordinator* for investigation / action / sanction
- that *monitoring software / systems* are implemented and updated as agreed in school policies

Teaching and Support Staff:

are responsible for ensuring that:

- they have an up to date awareness of Online Safety matters and of the current *school* Online Safety policy and practices
- they have read, understood and signed the Staff Acceptable Use Policy (AUP)
- they report any suspected misuse or problem to the *Headteacher / Senior Leader ; Online Safety Coordinator* for investigation / action / sanction and **record incidents on CPOMs assigning it to the appropriate staff.**
- all digital communications with pupils / parents / carers should be on a professional level and only carried out using official school systems
- Online Safety issues are embedded in all aspects of the curriculum and other activities
- pupils understand and follow the Online Safety and acceptable use policies
- pupils have a good understanding of research skills and the need to avoid plagiarism and uphold copyright regulations

- they monitor the use of digital technologies, mobile devices, cameras etc in lessons and other school activities (where allowed) and implement current policies with regard to these devices
- *in lessons where internet use is pre-planned pupils should be guided to sites checked as suitable for their use and that processes are in place for dealing with any unsuitable material that is found in internet searches*

Child Protection / Safeguarding Designated Person:

The DSL/ DDSLs should be trained in Online Safety issues and be aware of the potential for serious child protection / safeguarding issues to arise from:

- sharing of personal data
- access to illegal / inappropriate materials
- inappropriate on-line contact with adults / strangers
- potential or actual incidents of grooming
- cyber-bullying

Online Safety Group

In our school the DSL/ DDSLs, Computing Lead and Computing Technician alongside the SLT provides a group that has wide representation from the *school* community, with responsibility for issues regarding Online Safety and the monitoring of the Online Safety policy including the impact of initiatives. The group is also responsible for regular reporting to the *Governing Body*.

They assist with:

- the production / review / monitoring of the school Online Safety policy / documents.
- *the review / monitoring of the school filtering , in conjunction with PEN testing.*
- **mapping and reviewing the online safety/digital literacy curricular provision - ensuring relevance, breadth and progression**
- monitoring network / internet / incident logs
- consulting stakeholders - including parents / carers and the students / pupils about the Online Safety provision
- monitoring improvement actions identified through use of the 360 degree safe self-review tool

Pupils:

- are responsible for using the *school* digital technology systems in accordance with the Pupil Acceptable Use Policy
- have a good understanding of research skills and the need to avoid plagiarism and uphold copyright regulations
- need to understand the importance of reporting abuse, misuse or access to inappropriate materials and know how to do so
- will be expected to know and understand policies on the use of mobile devices and digital cameras. They should also know and understand policies on the taking / use of images and on online-bullying.
- should understand the importance of adopting good Online Safety practice when using digital technologies out of school and realise that the *school's* Online Safety Policy covers their actions out of school, if related to their membership of the school

Parents / Carers

Parents / Carers play a crucial role in ensuring that their children understand the need to use the internet / mobile devices in an appropriate way. The *school* will take every opportunity to help parents understand these issues through *parents' evenings, newsletters, letters, website social media and information about national/local online safety campaigns/literature. Parents and carers will be encouraged to support the school in promoting good online safety practice and to follow guidelines on the appropriate use of:*

- digital and video images taken at school events
- access to parents' sections of the website /Learning Platform (Google Classroom) and on-line pupil records

Community Users

Community Users who access school systems / website / VLE as part of the wider *school* provision will be expected to sign a Community User AUA before being provided with access to school systems.

Policy Statements

Education – pupils

Whilst regulation and technical solutions are very important, their use must be balanced by educating *pupils* to take a responsible approach. The education of *pupils* in Online Safety is therefore an essential part of the school's Online Safety provision. Children and young people need the help and support of the school to recognise and avoid Online Safety risks and build their resilience.

Online Safety should be a focus in all areas of the curriculum and staff should reinforce Online Safety messages across the curriculum. The Online Safety curriculum should be broad, relevant and provide progression, with opportunities for creative activities and will be provided in the following ways:

- A planned Online Safety curriculum should be provided as part of Computing / PHCSE / other lessons and should be regularly revisited
- Key Online Safety messages should be reinforced as part of a planned programme of assemblies and tutorial / pastoral activities
- Pupils should be taught in all lessons to be critically aware of the materials / content they access on-line and be guided to validate the accuracy of information.
- Pupils should be taught to acknowledge the source of information used and to respect copyright when using material accessed on the internet
- Pupils should be supported in building resilience to radicalisation by providing a safe environment for debating controversial issues and helping them to understand how they can influence and participate in decision-making. N.B. additional duties for schools under the Counter Terrorism and Securities Act 2015 which requires schools to ensure that children are safe from terrorist and extremist material on the internet.
- *Pupils should be helped to understand the need for the Pupil Acceptable Use Agreement and encouraged to adopt safe and responsible use both within and outside school*
- *Staff should act as good role models in their use of digital technologies the internet and mobile devices*
- *In lessons where internet use is pre-planned, it is best practice that pupils should be guided to sites checked as suitable for their use and that processes are in place for dealing with any unsuitable material that is found in internet searches.*
- *Where pupils are allowed to freely search the internet, staff should be vigilant in monitoring the content of the websites the young people visit.*

Education – parents / carers

Parents and carers have a wide and varied understanding of Online Safety risks and issues, yet they play an essential role in the education of their children and in the monitoring / regulation of the children's on-line behaviours. Parents may underestimate how often children and young people come across potentially harmful and inappropriate material on the internet and may be unsure about how to respond.

The school will therefore seek to provide information and awareness to parents and carers through:

- *Curriculum activities*
- *Letters, newsletters, web site, Learning Platform (Google Classroom)*
- *Parents / Carers evenings / sessions*
- *High profile events / campaigns eg Safer Internet Day*
- *Reference to the relevant web sites / publications eg The2Johns, www.saferinternet.org.uk, <http://www.childnet.com/parents-and-carers>*

Education & Training – Staff / Volunteers

It is essential that all staff receive Online Safety training and understand their responsibilities, as outlined in this policy. Training will be offered as follows:

- A planned programme of formal Online Safety training will be made available to staff. This will be regularly updated and reinforced. An audit of the Online Safety training needs of all staff will be carried out regularly.
- All new staff should receive Online Safety training as part of their induction programme, ensuring that they fully understand the school Online Safety policy and Acceptable Use Agreements.
- Some staff may identify online safety as a training need within the performance management process.
- The Online Safety Lead (or other nominated person) will receive regular updates through attendance at external training events and by reviewing guidance documents released by relevant organisations.
- This online safety policy and its updates will be presented to and discussed by staff in staff/team meetings/training sessions.

Training – Governors

Governors should take part in Online Safety training / awareness sessions, with particular importance for those who are members of any group involved in technology / Online Safety / health and safety / safeguarding. This may be offered in a number of ways:

- Attendance at training provided by the Local Authority / National Governors Association / or other relevant organisation.
- Participation in school training / information sessions for staff or parents (this may include attendance at assemblies / lessons).

Technical – infrastructure / equipment, filtering and monitoring

The school will be responsible for ensuring that the school infrastructure / network is as safe and secure as is reasonably possible and that policies and procedures approved within this policy are implemented. It will also need to ensure that the relevant people named in the above sections will be effective in carrying out their Online Safety responsibilities:

- School technical systems will be managed in ways that ensure that the school meets recommended technical requirements
- There will be regular reviews and audits of the safety and security of school academy technical systems
- Servers, wireless systems and cabling must be securely located and physical access restricted
- All users will have clearly defined access rights to school technical systems and devices.
- All users in KS2, staff and technical support will be provided with a username and secure password by the *Computer TA or Computing Subject Lead, who will keep an up to date record of users. KS2 Pupil Passwords will be set after guidance by the pupils themselves and can be reset by the Computing TA or Subject Lead if required. Staff and Technical Support users will have a preset password, but will be prompted to change to a secure password upon first use. Users are responsible for the security of their username and password and will be encouraged to change their password periodically.*
- The “master / administrator” passwords for the school / academy ICT system, used by the Network Manager (or other person) must also be available to the *Headteacher* or other nominated senior leader and kept in a secure place (eg school safe)
- *The Computing Subject Lead is responsible for ensuring that software licence logs are accurate and up to date and that regular checks are made to reconcile the number of licences purchased against the number of software installations (Inadequate licencing could cause the school to breach the Copyright Act which could result in fines or unexpected licensing costs)*

- Internet access is filtered for all users. Illegal content (child sexual abuse images) is filtered by the broadband or filtering provider by actively employing the Internet Watch Foundation CAIC list. Content lists are regularly updated and internet use is logged and regularly monitored. There is a clear process in place to deal with requests for filtering changes (United Net - filtering , managed requests Computing TA)
- Internet filtering/monitoring should ensure that children are safe from terrorist and extremist material when accessing the internet. N.B. additional duties for schools under the Counter Terrorism and Securities Act 2015 which requires schools to ensure that children are safe from terrorist and extremist material on the internet. (see appendix for information on "appropriate filtering").
- *The school has provided enhanced / differentiated user-level filtering (allowing different filtering levels for different ages / stages and different groups of users - administrators/ staff / pupils etc)*
- *School technical staff regularly monitor and record the activity of users on the school technical systems and users are made aware of this in the Acceptable Use Agreement.*
- *An appropriate system is in place (to be described) for users to report any actual / potential technical incident / security breach to the relevant person, as agreed).*
- Appropriate security measures are in place to protect the servers, firewalls, routers, wireless systems, work stations, mobile devices etc from accidental or malicious attempts which might threaten the security of the school systems and data. These are tested regularly. The school infrastructure and individual workstations are protected by up to date virus software.
- An agreed policy is in place (to be described) for the provision of temporary access of "guests" (eg trainee teachers, supply teachers, visitors) onto the school systems.
- *An agreed policy is in place (to be described) regarding the extent of personal use that users (staff / students / pupils / community users) and their family members are allowed on school devices that may be used out of school.*
- *An agreed policy is in place (Restricted access to Level 6 administrator users within the Curriculum Network, Managed users / administrative users within the Administrative Network) that allows staff to / forbids staff from downloading executable files and installing programmes on school devices.*
- *An agreed policy is in place (to be described) regarding the use of removable media (eg memory sticks / CDs / DVDs) by users on school devices. Personal data cannot be sent over the internet or taken off the school site unless safely encrypted or otherwise secured. (see School Personal Data Policy Template in the appendix for further detail)*

Bring Your Own Device (BYOD)

At present pupils are allowed to bring mobile devices to school with prior agreement; however these items are to be handed into the office at the beginning of the school day and are collected before the pupils leave the school premises. Pupil's personal mobile devices are not used in a teaching and learning environment, however as technology is continually evolving the BOYD Policy will be reviewed regularly.

	School Devices			Personal Devices		
	School owned for single user	School owned for multiple users	Authorised device ¹	Student owned	Staff owned	Visitor owned
Allowed in school	<i>Yes</i>	<i>Yes</i>	<i>Yes</i>	<i>Yes</i>	<i>Yes</i>	<i>Yes</i>
School network access	<i>Yes</i>	<i>Yes</i>	<i>Yes</i>	<i>No</i>	<i>No</i>	<i>No</i>
School Internet only			<i>Yes</i>	<i>No</i>	<i>Yes</i>	<i>Yes*</i>
No network access				<i>No</i>		<i>No – except technical devices from approved support</i>

Aspects that the school may wish to consider and be included in their online safety policy, mobile technologies policy or acceptable use agreements:

School owned/provided devices:

- *Who they will be allocated to*
- *Where, when and how their use is allowed – times/places/in school/out of school*
- *If personal use is allowed*
- *Levels of access to networks/internet (as above)*
- *Management of devices/installation of apps/changing of settings/monitoring*
- *Network/broadband capacity*
- *Technical support*
- *Filtering of devices*
- *Access to cloud services*
- *Data Protection*
- *Taking/storage/use of images*

¹ Authorised device ie– purchased by the DfE Laptop scheme. This device may be given full access to the network.

*Visitors to the School site/ Chapel for training will be given access to the Internet

- *Exit processes – what happens to devices/software/apps/stored data if user leaves the school*
- *Liability for damage*
- *Staff training*

Personal devices:

- Which users are allowed to use personal mobile devices in school (staff/pupils/students/visitors)
- Restrictions on where, when and how they may be used in school
- Storage
- Whether staff will be allowed to use personal devices for school business
- Levels of access to networks/internet (as above)
- Network/broadband capacity
- Technical support (this may be a clear statement that no technical support is available)
- Filtering of the internet connection to these devices
- Data Protection
- The right to take, examine and search users devices in the case of misuse (England only) - N.B. this must also be included in the Behaviour Policy.
- Taking/storage/use of images
- Liability for loss/damage or malfunction following access to the network (likely to be a disclaimer about school responsibility).
- Identification/labelling of personal devices
- How visitors will be informed about school requirements
- How education about the safe and responsible use of mobile devices is included in the school online safety education programmes.

Use of digital and video images

The development of digital imaging technologies has created significant benefits to learning, allowing staff and pupils instant use of images that they have recorded themselves or downloaded from the internet. However, staff, parents / carers and pupils need to be aware of the risks associated with publishing digital images on the internet. Such images may provide avenues for cyberbullying to take place. Digital images may remain available on the internet forever and may cause harm or embarrassment to individuals in the short or longer term. It is common for employers to carry out internet searches for information about potential and existing employees. The school will inform and educate users about these risks and will implement policies to reduce the likelihood of the potential for harm:

- When using digital images, staff should inform and educate pupils about the risks associated with the taking, use, sharing, publication and distribution of images. In

particular they should recognise the risks attached to publishing their own images on the internet eg on social networking sites.

- *Written permission from parents or carers will be obtained before photographs of pupils are published on the school website/social media/local press (Review with data return annually)*
- *In accordance with guidance from the Information Commissioner's Office, parents / carers are welcome to take videos and digital images of their children at school events for their own personal use (as such use is not covered by the Data Protection Act). To respect everyone's privacy and in some cases protection, these images should not be published / made publicly available on social networking sites, nor should parents / carers comment on any activities involving other students / pupils in the digital / video images.*
- *Staff and volunteers are allowed to take digital / video images to support educational aims, but must follow school policies concerning the sharing, distribution and publication of those images. Those images should only be taken on school equipment, the personal equipment of staff should not be used for such purposes (*).*
- *Care should be taken when taking digital / video images that pupils are appropriately dressed and are not participating in activities that might bring the individuals or the school into disrepute.*
- *Pupils must not take, use, share, publish or distribute images of others without their permission*
- *Photographs published on the website, or elsewhere that include pupils will be selected carefully and will comply with good practice guidance on the use of such images.*
- *Pupils' full names will not be used anywhere on a website or blog, particularly in association with photographs.*
- *Written permission from parents or carers will be obtained before photographs of pupils are published on the school website (Parents to sign Photo permission paperwork when the pupil begins the school; parents can review this at any stage)*
- *Pupil's work can only be published with the permission of the pupil and parents or carers.*

Data Protection

With effect from 25th May 2018, the data protection arrangements for the UK changed following the European Union General Data Protection Regulation (GDPR). As a

result, schools are likely to be subject to greater scrutiny in their care and use of personal data.

The school must ensure that:

- it has a Data Protection Policy.
- it implements the data protection principles and is able to demonstrate that it does so through use of policies, notices and records.
- it has paid the appropriate fee Information Commissioner's Office (ICO) and included details of the Data Protection Officer (DPO).
- it has appointed an appropriate Data Protection Officer (DPO) who has a high level of understanding of data protection law and is free from any conflict of interest. The school/academy may also wish to appoint a Data Manager and Systems Controllers to support the DPO
- it has an 'information asset register' in place and knows exactly what personal data it holds, where this data is held, why and which member of staff has responsibility for managing it
- the information asset register records the lawful basis for processing personal data (including, where relevant, how consent was obtained and refreshed). Where special category data is processed, an additional lawful basis will have also been recorded
- it will hold only the minimum personal data necessary to enable it to perform its function and it will not hold it for longer than necessary for the purposes it was collected for. The school should develop and implement a 'retention policy' to ensure there are clear and understood policies and routines for the deletion and disposal of data to support this. personal data held must be accurate and up to date where this is necessary for the purpose it is processed for. Have systems in place to identify inaccuracies, such as asking parents to check emergency contact details at suitable intervals
- it provides staff, parents, volunteers, teenagers and older children with information about how the school/academy looks after their data and what their rights are in a clear Privacy Notice (see Privacy Notice section in the appendix)
- procedures must be in place to deal with the individual rights of the data subject, e.g. one of the 8 data subject rights applicable is that of Subject Access which enables an individual to see to have a copy of the personal data held about them (subject to certain exceptions which may apply).

- data Protection Impact Assessments (DPIA) are carried out where necessary. For example, to ensure protection of personal data when accessed using any remote access solutions, or entering into a relationship with a new supplier (this may also require ensuring that data processing clauses are included in the supply contract or as an addendum)
- IT system security is ensured and regularly checked. Patches and other security essential updates are applied promptly to protect the personal data on the systems. Administrative systems are securely ring fenced from systems accessible in the classroom/to learners
- it has undertaken appropriate due diligence and has required data processing clauses in contracts in place with any data processors where personal data is processed.
- it understands how to share data lawfully and safely with other relevant data controllers.
- it reports any relevant breaches to the Information Commissioner within 72hrs of becoming aware of the breach in accordance with UK data protection law. It also reports relevant breaches to the individuals affected as required by law. In order to do this, it has a policy for reporting, logging, managing, investigating and learning from information risk incidents.
- all staff receive data protection training at induction and appropriate refresher training thereafter. Staff undertaking particular data protection functions, such as handling requests under the individual's rights, will receive training appropriate for their function as well as the core training provided to all staff.

When personal data is stored on any mobile device or removable media the:

- data must be encrypted and password protected.
- device must be password protected. (be sure to select devices that can be protected in this way - To limit the risk to personal data - no removable devices are to be used without prior permission of the Headteacher)
- device must be protected by up to date virus and malware checking software
- data must be securely deleted from the device, in line with school policy once it has been transferred or its use is complete.

Staff must ensure that they:

- at all times take care to ensure the safe keeping of personal data, minimising the risk of its loss or misuse
- can recognise a possible breach, understand the need for urgency and know who to report it to within the school
- can help data subjects understand their rights and know how to handle a request whether verbal or written. Know who to pass it to in the school
- where personal data is stored or transferred on mobile or other devices (including USBs) these must be encrypted and password protected.
- will not transfer any school personal data to personal devices except as in line with school policy
- access personal data sources and records only on secure password protected computers and other devices, ensuring that they are properly "logged-off" at the end of any session in which they are using personal data

(The school will need to set its own policy as to whether data storage on removal media is allowed, even if encrypted – some organisations do not allow storage of personal data on removable devices.)

The Personal Data Advice and Guidance in the appendix provides more detailed information on the school's/academy's responsibilities and on good practice.

Communications

This is an area of rapidly developing technologies and uses. Schools will need to discuss and agree how they intend to implement and use these technologies e.g. some schools do not allow students/pupils to use mobile phones in lessons, while others recognise their educational potential and allow their use. This section may also be influenced by the age of the students/pupils. The table has been left blank for school/academy to choose its own responses.

Communications

A wide range of rapidly developing communications technologies has the potential to enhance learning. The following table shows how the school currently considers the benefit of using these technologies for education outweighs their risks / disadvantages:

	Staff & other adults				Pupils			
	Allowed	Allowed at certain times	Allowed for selected staff	Not allowed	Allowed	Allowed at certain times	Allowed with staff mission	Not allowed
Communication Technologies								
Mobile phones may be brought to school	✓						✓	
Use of mobile phones in lessons				✓				✓
Use of mobile phones in social time	✓*							✓
Taking photos on mobile phones / cameras	✓							✓
Use of other mobile devices eg tablets, gaming devices	✓					✓		
Use of personal email addresses in school, or on school network	✓						✓	
Use of school email for personal emails				✓		✓		
Use of messaging apps	✓							✓
Use of social media	✓*							✓Δ
Use of blogs	✓*							✓□

✓* With strict guidelines re: professionalism, security settings, privacy & photo permissions

✓Δ except child specific 'social media clubs'

✓□ except PurpleMash Blog within the PurpleMash site

When using communication technologies the school considers the following as good practice:

- **The official *school* email service may be regarded as safe and secure and is monitored. Users should be aware that email communications are monitored.**
- **Users must immediately report, to the nominated person – in accordance with the school policy, the receipt of any communication that makes them feel uncomfortable, is offensive, discriminatory, threatening or bullying in nature and must not respond to any such communication.**
- **Any digital communication between staff and pupils or parents / carers (email, chat, Google Classroom, Class Dojo, social media etc) must be professional in tone and content. *Personal email addresses, text messaging or social media must not be used for these communications.***
- *Whole class / group email addresses may be used at KS1, while pupils at KS2 and above will be provided with individual school email addresses for educational use. ([Google Classroom @stthomasmores.co.uk](mailto:@stthomasmores.co.uk))*
- *Pupils should be taught about Online Safety issues, such as the risks attached to the sharing of personal details. They should also be taught strategies to deal with inappropriate communications and be reminded of the need to communicate appropriately when using digital technologies.*
- *Personal information should not be posted on the school website and only official email addresses should be used to identify members of staff.*

Social Media - Protecting Professional Identity

With an increase in use of all types of social media for professional and personal purposes a policy that sets out clear guidance for staff to manage risk and behaviour online is essential. Core messages should include the protection of pupils, the school and the individual when publishing any material online. Expectations for teachers' professional conduct are set out in 'Teachers Standards 2012'. While, Ofsted's Online Safety framework 2012, reviews how a school protects and educates staff and pupils in their use of technology, including what measures would be expected to be in place to intervene and support should a particular issue arise.

All schools, academies and local authorities have a duty of care to provide a safe learning environment for pupils and staff. Schools and local authorities could be held responsible, indirectly for acts of their employees in the course of their employment. Staff members who harass, cyberbully, discriminate on the grounds of sex, race or disability or who defame a third party may render the *school* or local authority liable to the injured party. Reasonable steps to prevent predictable harm must be in place.

The school provides the following measures to ensure reasonable steps are in place to minimise risk of harm to pupils, staff and the school through limiting access to personal information:

- Training to include: acceptable use; social media risks; checking of settings; data protection; reporting issues.
- Clear reporting guidance, including responsibilities, procedures and sanctions
- Risk assessment, including legal risk

School staff should ensure that:

- No reference should be made in social media to students / pupils, parents / carers or school staff
- They do not engage in online discussion on personal matters relating to members of the school community
- Personal opinions should not be attributed to the *school /academy* or local authority

- Security settings on personal social media profiles are regularly checked to minimise risk of loss of personal information.

All schools, academies, MATs and local authorities have a duty of care to provide a safe learning environment for pupils and staff. Schools/academies, MATs and local authorities could be held responsible, indirectly for acts of their employees in the course of their employment. Staff members who harass, engage in online bullying, discriminate on the grounds of sex, race or disability or who defame a third party may render the school/academy or local authority/MAT liable to the injured party. Reasonable steps to prevent predictable harm must be in place.

The school/academy provides the following measures to ensure reasonable steps are in place to minimise risk of harm to pupils, staff and the school through:

- Ensuring that personal information is not published
- Training is provided including: acceptable use; social media risks; checking of settings; data protection; reporting issues. Online Safety BOOST includes unlimited webinar training on this subject: <https://boost.swgfl.org.uk/>
- Clear reporting guidance, including responsibilities, procedures and sanctions
- Risk assessment, including legal risk

School/academy staff should ensure that:

- No reference should be made in social media to students/pupils, parents/carers or school/academy staff
- They do not engage in online discussion on personal matters relating to members of the school community
- Personal opinions should not be attributed to the school /academy or local authority/MAT
- Security settings on personal social media profiles are regularly checked to minimise risk of loss of personal information

When official school social media accounts are established there should be:

- A process for approval by senior leaders
- Clear processes for the administration and monitoring of these accounts – involving at least two members of staff
- A code of behaviour for users of the accounts, including
- Systems for reporting and dealing with abuse and misuse
- Understanding of how incidents may be dealt with under school disciplinary procedures

Personal Use:

- Personal communications are those made via personal social media accounts. In all cases, where a personal account is used which associates itself with the school or impacts on the school, it must be made clear that the member of staff is not communicating on behalf of the school with an appropriate disclaimer. Such personal communications are within the scope of this policy
- Personal communications which do not refer to or impact upon the school are outside the scope of this policy
- Where excessive personal use of social media in school is suspected, and considered to be interfering with relevant duties, disciplinary action may be taken
- The school permits reasonable and appropriate access to private social media sites

Monitoring of Public Social Media:

- As part of active social media engagement, it is considered good practice to pro-actively monitor the Internet for public postings about the school

- The school should effectively respond to social media comments made by others according to a defined policy or process

The school's use of social media for professional purposes will be checked regularly by the senior risk officer and Online Safety Group to ensure compliance with the school

Unsuitable / inappropriate activities

Some internet activity eg accessing child abuse images or distributing racist material is illegal and would obviously be banned from school / academy and all other technical systems. Other activities eg cyber-bullying would be banned and could lead to criminal prosecution. There are however a range of activities which may, generally, be legal but would be inappropriate in a school context, either because of the age of the users or the nature of those activities.

The school believes that the activities referred to in the following section would be inappropriate in a school context and that users, as defined below, should not engage in these activities in school or outside school when using school equipment or systems. The school policy restricts usage as follows:

User Actions

		Acceptable	Acceptable at certain times	Acceptable for nominated users	Unacceptable	Unacceptable and illegal
Users shall not visit Internet sites, make, post, download, upload, data transfer, communicate or pass on, material, remarks, proposals or comments that contain or relate to:	Child sexual abuse images –The making, production or distribution of indecent images of children. Contrary to The Protection of Children Act 1978 N.B. Schools/academies should refer to guidance about dealing with self-generated images/sexting – UKSIC Responding to and managing sexting incidents and UKCIS – Sexting in schools and colleges					X
	Grooming, incitement, arrangement or facilitation of sexual acts against children Contrary to the Sexual Offences Act 2003.					X
	Possession of an extreme pornographic image (grossly offensive, disgusting or otherwise of an obscene character) Contrary to the Criminal Justice and Immigration Act 2008					X
	criminally racist material in UK – to stir up religious hatred (or hatred on the grounds of sexual orientation) - contrary to the Public Order Act 1986					X
	pornography				X	
	promotion of any kind of discrimination				X	
	threatening behaviour, including promotion of physical violence or mental harm				X	

	Promotion of extremism or terrorism				X	
	any other information which may be offensive to colleagues or breaches the integrity of the ethos of the school or brings the school into disrepute				X	
Activities that might be classed as cyber-crime under the Computer Misuse Act: <ul style="list-style-type: none"> Gaining unauthorised access to school networks, data and files, through the use of computers/devices Creating or propagating computer viruses or other harmful files Revealing or publicising confidential or proprietary information (e.g. financial / personal information, databases, computer / network access codes and passwords) Disable/Impair/Disrupt network functionality through the use of computers/devices Using penetration testing equipment (without relevant permission) <p>N.B. Schools/academies will need to decide whether these should be dealt with internally or by the police. Serious or repeat offences should be reported to the police. Under the Cyber-Prevent agenda the National Crime Agency has a remit to prevent young people becoming involved in cyber-crime and harness their activity in positive ways – further information here</p>						X
Using systems, applications, websites or other mechanisms that bypass the filtering or other safeguards employed by the school					X	
Revealing or publicising confidential or proprietary information (e.g. financial/personal information, databases, computer/network access codes and passwords)					X	
Unfair usage (downloading/uploading large files that hinders others in their use of the internet)					X	
Using school systems to run a private business					X	
Infringing copyright					X	
On-line gaming (educational)		X				
On-line gaming (non educational)			X			
On-line gambling					X	
On-line shopping / commerce					X	
File sharing		X				
Use of social media				X		
Use of messaging apps			X			
Use of video broadcasting eg Youtube				X		

Responding to incidents of misuse

This guidance is intended for use when staff need to manage incidents that involve the use of online services. It encourages a safe and secure approach to the management of the incident. Incidents might involve illegal or inappropriate activities (see “User Actions” above

Illegal Incidents

If there is any suspicion that the web site(s) concerned may contain child abuse images, or if there is any other suspected illegal activity, refer to the right hand side of the Flowchart (below and appendix) for responding to online safety incidents and report immediately to the police.

Other Incidents

It is hoped that all members of the school community will be responsible users of digital technologies, who understand and follow school policy. However, there may be times when infringements of the policy could take place, through careless or irresponsible or, very rarely, through deliberate misuse.

In the event of suspicion, all steps in this procedure should be followed:

- Have more than one senior member of staff / volunteer involved in this process. This is vital to protect individuals if accusations are subsequently reported.
- Conduct the procedure using a designated computer that will not be used by young people and if necessary can be taken off site by the police should the need arise. Use the same computer for the duration of the procedure.
- It is important to ensure that the relevant staff should have appropriate internet access to conduct the procedure, but also that the sites and content visited are closely monitored and recorded (to provide further protection).
- Record the url of any site containing the alleged misuse and describe the nature of the content causing concern. It may also be necessary to record and store screenshots of the content on the machine being used for investigation. These may be printed, signed and attached to the form (except in the case of images of child sexual abuse – see below)
- Once this has been completed and fully investigated the group will need to judge whether this concern has substance or not. If it does then appropriate action will be required and could include the following:
 - Internal response or discipline procedures
 - Involvement by Local Authority or national / local organisation (as relevant).
 - Police involvement and/or action
- **If content being reviewed includes images of Child abuse then the monitoring should be halted and referred to the Police immediately. Other instances to report to the police would include:**
 - incidents of 'grooming' behaviour
 - the sending of obscene materials to a child
 - adult material which potentially breaches the Obscene Publications Act
 - criminally racist material
 - promotion of terrorism or extremism
 - offences under the Computer Misuse Act (see User Actions chart above)
 - other criminal conduct, activity or materials
- **Isolate the computer in question as best you can. Any change to its state may hinder a later police investigation.**

It is important that all of the above steps are taken as they will provide an evidence trail for the *school* and possibly the police and demonstrate that visits to these sites were carried out for child protection purposes. The completed form should be retained by the group for evidence and reference purposes.

School Actions & Sanctions

It is more likely that the school will need to deal with incidents that involve inappropriate rather than illegal misuse. It is important that any incidents are dealt with as soon as possible in a proportionate manner, and that members of the school community are aware that incidents have been dealt with. It is intended that incidents of misuse will be dealt with through normal behaviour / disciplinary procedures as follows:

Students / Pupils

Actions / Sanctions

Incidents:	Refer to class teacher	Refer to ICT Coordinator	Refer to Head teacher	Refer to Police	Refer to technical support staff for action re filtering / security etc	Inform parents / carers	Removal of network / internet access rights	Warning	Further sanction eg detention / exclusion
Deliberately accessing or trying to access material that could be considered illegal (see list in earlier section on unsuitable / inappropriate activities).		X	X	X

Development / Monitoring / Review of this Policy

This Online Safety policy was approved by the <i>Governing Body</i> :	<i>Autumn 2023</i>
The implementation of this Online Safety policy will be monitored by the:	<i>Online Safety Coordinator, Senior Leadership Team, ICT Teaching Assistant and Headteacher</i>
Monitoring will take place at regular intervals:	<i>Annually</i>
The <i>Board of Directors / Governing Body / Governors Sub Committee</i> will receive a report on the implementation of the Online Safety policy generated by the monitoring group (which will include anonymous details of Online Safety incidents) at regular intervals:	<i>Annually</i>
The Online Safety Policy will be reviewed annually, or more regularly in the light of any significant new developments in the use of the technologies, new threats to Online Safety or incidents that have taken place. The next anticipated review date will be:	<i>Autumn 2024</i>
Should serious Online Safety incidents take place, the following external persons / agencies should be informed:	<i>DPO/ SET procedures/ Police</i>

The school will monitor the impact of the policy using:

- *Logs of reported incidents*
- *Monitoring logs of internet activity (including sites visited)*
- *Internal monitoring data for network activity*
- *Surveys / questionnaires of*
 - *pupils*
 - *parents / carers*
 - *staff*

Pupil Acceptable Use Agreement Template – for older students / pupils

School Policy

Digital technologies have become integral to the lives of children and young people, both within schools and outside school. These technologies are powerful tools, which open up new opportunities for everyone. These technologies can stimulate discussion, promote creativity and stimulate awareness of context to promote effective learning. Young people should have an entitlement to safe internet access at all times.

This Acceptable Use Policy is intended to ensure:

- that young people will be responsible users and stay safe while using the internet and other digital technologies for educational, personal and recreational use.
- that school systems and users are protected from accidental or deliberate misuse that could put the security of the systems and users at risk.

The school will try to ensure that *pupils* will have good access to digital technologies to enhance their learning and will, in return, expect the *pupils* to agree to be responsible users.

Acceptable Use Policy Agreement

I understand that I must use school ICT systems in a responsible way, to ensure that there is no risk to my safety or to the safety and security of the ICT systems and other users.

For my own personal safety:

- I understand that the *school* will monitor my use of the systems, devices and digital communications.
- I will keep my username and password safe and secure – I will not share it, nor will I try to use any other person's username and password. I understand that I should not write down or store a password where it is possible that someone may steal it.
- I will be aware of "stranger danger", when I am communicating on-line.
- I will not disclose or share personal information about myself or others when on-line (this could include names, addresses, email addresses, telephone numbers, age, gender, educational details, financial details etc)
- If I arrange to meet people off-line that I have communicated with on-line, I will do so in a public place and take an adult with me.
- I will immediately report any unpleasant or inappropriate material or messages or anything that makes me feel uncomfortable when I see it on-line.

I understand that everyone has equal rights to use technology as a resource and:

- I understand that the *school* systems and devices are primarily intended for educational use and that I will not use them for personal or recreational use unless I have permission.
- I will not try (unless I have permission) to make large downloads or uploads that might take up internet capacity and prevent other users from being able to carry out their work.
- I will not use the *school* systems or devices for on-line gaming, on-line gambling, internet shopping, file sharing, or video broadcasting (eg YouTube), unless I have permission of a member of staff to do so.

I will act as I expect others to act toward me:

- I will respect others' work and property and will not access, copy, remove or otherwise alter any other user's files, without the owner's knowledge and permission.
- I will be polite and responsible when I communicate with others, I will not use strong, aggressive or inappropriate language and I appreciate that others may have different opinions.
- I will not take or distribute images of anyone without their permission.

I recognise that the school has a responsibility to maintain the security and integrity of the technology it offers me and to ensure the smooth running of the *school*:

- I understand the risks and will not try to upload, download or access any materials which are illegal or inappropriate or may cause harm or distress to others, nor will I try to use any programmes or software that might allow me to bypass the filtering / security systems in place to prevent access to such materials.
- I will immediately report any damage or faults involving equipment or software, however this may have happened.
- I will not open any hyperlinks in emails or any attachments to emails, unless I know and trust the person / organisation who sent the email, or if I have any concerns about the validity of the email (due to the risk of the attachment containing viruses or other harmful programmes)
- I will not install or attempt to install or store programmes of any type on any school device, nor will I try to alter computer settings.
- I will only use social media sites with permission and at the times that are allowed.

When using the internet for research or recreation, I recognise that:

- I should ensure that I have permission to use the original work of others in my own work
- Where work is protected by copyright, I will not try to download copies (including music and videos)
- When I am using the internet to find information, I should take care to check that the information that I access is accurate, as I understand that the work of others may not be truthful and may be a deliberate attempt to mislead me.

I understand that I am responsible for my actions, both in and out of school:

- I understand that the *school* also has the right to take action against me if I am involved in incidents of inappropriate behaviour, that are covered in this agreement, when I am out of school and where they involve my membership of the school community (examples would be cyber-bullying, use of images or personal information).
- I understand that if I fail to comply with this Acceptable Use Policy Agreement, I will be subject to disciplinary action. This may include loss of access to the school network / internet, detentions, suspensions, contact with parents and in the event of illegal activities involvement of the police.

Please complete the sections on the next page to show that you have read, understood and agree to the rules included in the Acceptable Use Agreement. If you do not sign and return this agreement, access will not be granted to school systems and devices.

Pupil Acceptable Use Agreement Form

This form relates to the *Pupil* Acceptable Use Agreement, to which it is attached.

Please complete the sections below to show that you have read, understood and agree to the rules included in the Acceptable Use Agreement. If you do not sign and return this agreement, access will not be granted to school Computer systems.

I have read and understand the above and agree to follow these guidelines when:

- I use the *school* systems and devices (both in and out of school)
- I use my own equipment out of the school in a way that is related to me being a member of this *school* eg communicating with other members of the school, accessing school email, Google Classroom, website etc.

Pupil Acceptable Use Policy Agreement Reception / KS1

To stay safe when I use computers I will:

- Ask a teacher or an adult if I want to use the computers /tablets

- Only use activities that a teacher or adult has told or allowed me to use.

- Search the internet with a teacher or an adult

- Always ask a teacher or an adult if I get lost on the internet.

- Take care of the computers/tablets and other equipment

- Ask for help from a teacher or an adult if I am not sure what to do or if I think I have done something wrong.

- Tell a teacher or an adult if I see something that upsets me on the screen.

I know that if I break the rules I might not be allowed to use a computer.

Parent / Carer Acceptable Use Agreement Template

Digital technologies have become integral to the lives of children and young people, both within schools and outside school. These technologies provide powerful tools, which open up new opportunities for everyone. They can stimulate discussion, promote creativity and stimulate awareness of context to promote effective learning. Young people should have an entitlement to safe internet access at all times.

This Acceptable Use Policy is intended to ensure:

- that young people will be responsible users and stay safe while using the internet and other communications technologies for educational, personal and recreational use.
- that school systems and users are protected from accidental or deliberate misuse that could put the security of the systems and users at risk.
- that parents and carers are aware of the importance of Online Safety and are involved in the education and guidance of young people with regard to their on-line behaviour.

The school will try to ensure that *pupils* will have good access to digital technologies to enhance their learning and will, in return, expect the *pupils* to agree to be responsible users. A copy of the Pupil Acceptable Use Policy is attached to this permission form, so that parents / carers will be aware of the school expectations of the young people in their care.

Parents are requested to sign the permission form below to show their support of the school in this important aspect of the school's work.

Permission Form

Parent / Carers Name

Student / Pupil Name

As the parent / carer of the above *pupils*, I give permission for my son / daughter to have access to the internet and to ICT systems at school.

Either: (KS2 and above)

I know that my son / daughter has signed an Acceptable Use Agreement and has received, or will receive, Online Safety education to help them understand the importance of safe use of technology and the internet – both in and out of school.

Or: (KS1)

I understand that the school has discussed the Acceptable Use Agreement with my son / daughter and that they have received, or will receive, Online Safety education to help them understand the importance of safe use of technology and the internet – both in and out of school.

I understand that the school will take every reasonable precaution, including monitoring and filtering systems, to ensure that young people will be safe when they use the internet and ICT systems. I also understand that the school cannot ultimately be held responsible for the nature and content of materials accessed on the internet and using mobile technologies.

I understand that my son's / daughter's activity on the ICT systems will be monitored and that the school will contact me if they have concerns about any possible breaches of the Acceptable Use Policy.

I will encourage my child to adopt safe use of the internet and digital technologies at home and will inform the school if I have concerns over my child's Online Safety.

Signed

Pupil Acceptable Use Agreement

On the following pages we have copied, for the information of parents and carers, the Pupil Acceptable Use Agreement.

It is suggested that when the Student / Pupil AUP is written that a copy should be attached to the Parents / Carers AUP Agreement to provide information for parents and carers about the rules and behaviours that students / pupils have committed to by signing the form.

Staff (and Volunteer) Acceptable Use Policy Agreement Template

School Policy

New technologies have become integral to the lives of children and young people in today's society, both within schools / academies and in their lives outside school. The internet and other digital information and communications technologies are powerful tools, which open up new opportunities for everyone. These technologies can stimulate discussion, promote creativity and stimulate awareness of context to promote effective learning. They also bring opportunities for staff to be more creative and productive in their work. All users should have an entitlement to safe internet access at all times.

This Acceptable Use Policy is intended to ensure:

- that staff and volunteers will be responsible users and stay safe while using the internet and other communications technologies for educational, personal and recreational use.
- that school / academy ICT systems and users are protected from accidental or deliberate misuse that could put the security of the systems and users at risk.
- that staff are protected from potential risk in their use of ICT in their everyday work.

The school will try to ensure that staff and volunteers will have good access to ICT to enhance their work, to enhance learning opportunities for *pupils* learning and will, in return, expect staff and volunteers to agree to be responsible users.

Acceptable Use Policy Agreement

I understand that I must use school ICT systems in a responsible way, to ensure that there is no risk to my safety or to the safety and security of the ICT systems and other users. I recognise the value of the use of ICT for enhancing learning and will ensure that pupils receive opportunities to gain from the use of ICT. I will, where possible, educate the young people in my care in the safe use of ICT and embed Online Safety in my work with young people.

For my professional and personal safety:

- I understand that the *school* will monitor my use of the ICT systems, email and other digital communications.
- I understand that the rules set out in this agreement also apply to use of school ICT systems (eg laptops, email, Google Classroom, Class Dojo etc) out of school, and to the transfer of personal data (digital or paper based) out of school
- I understand that the school ICT systems are primarily intended for educational use and that I will only use the systems for personal or recreational use within the policies and rules set down by the school.
- I will not disclose my username or password to anyone else, nor will I try to use any other person's username and password. I understand that I should not write down or store a password where it is possible that someone may steal it.
- I will immediately report any illegal, inappropriate or harmful material or incident, I become aware of, to the appropriate person.

I will be professional in my communications and actions when using *school* ICT systems:

- I will not access, copy, remove or otherwise alter any other user's files, without their express permission.
- I will communicate with others in a professional manner, I will not use aggressive or inappropriate language and I appreciate that others may have different opinions.
- I will ensure that when I take and / or publish images of others I will do so with their permission and in accordance with the school's policy on the use of digital / video images. I will not use my personal equipment to record these images, unless I have permission to do so. Where these images are published (eg on the school website / Google Classroom) it will not be possible to identify by name, or other personal information, those who are featured.
- I will only use chat and social networking sites in school in accordance with the school's policies.
- I will only communicate with pupils and parents / carers using official school systems. Any such communication will be professional in tone and manner.
- I will not engage in any on-line activity that may compromise my professional responsibilities.

The school and the local authority have the responsibility to provide safe and secure access to technologies and ensure the smooth running of the *school*:

- When I use my mobile devices (laptops / mobile phones / USB devices etc) in school, I will follow the rules set out in this agreement, in the same way as if I was using *school* equipment. I will also follow any additional rules set by the *school* about such use. I will ensure that any such devices are protected by up to date anti-virus software and are free from viruses.
- I will not open any hyperlinks in emails or any attachments to emails, unless the source is known and trusted, or if I have any concerns about the validity of the email (due to the risk of the attachment containing viruses or other harmful programmes)
- I will ensure that my data is regularly backed up, in accordance with relevant school policies.
- I will not try to upload, download or access any materials which are illegal (child sexual abuse images, criminally racist material, adult pornography covered by the Obscene Publications Act) or inappropriate or may cause harm or distress to others. I will not try to use any programmes or software that might allow me to bypass the filtering / security systems in place to prevent access to such materials.
- I will not try (unless I have permission) to make large downloads or uploads that might take up internet capacity and prevent other users from being able to carry out their work.
- I will not install or attempt to install programmes of any type on a machine, or store programmes on a computer, nor will I try to alter computer settings, unless this is allowed in school policies.
- I will not disable or cause any damage to school equipment, or the equipment belonging to others.
- I will only transport, hold, disclose or share personal information about myself or others, as outlined in the School / LA Personal Data Policy (or other relevant policy). Where digital personal data is transferred outside the secure local network, it must be encrypted. Paper based Protected and Restricted data must be held in lockable storage.
- I understand that data protection policy requires that any staff or pupil data to which I have access, will be kept private and confidential, except when it is deemed necessary that I am required by law or by school policy to disclose such information to an appropriate authority.

- I will immediately report any damage or faults involving equipment or software, however this may have happened.

When using the internet in my professional capacity or for school sanctioned personal use:

- I will ensure that I have permission to use the original work of others in my own work
- Where work is protected by copyright, I will not download or distribute copies (including music and videos).

I understand that I am responsible for my actions in and out of the *school*:

- I understand that this Acceptable Use Policy applies not only to my work and use of school ICT equipment in school, but also applies to my use of school ICT systems and equipment off the premises and my use of personal equipment on the premises or in situations related to my employment by the school.
- I understand that if I fail to comply with this Acceptable Use Policy Agreement, I could be subject to disciplinary action. This could include a warning, a suspension, referral to Governors / Directors and / or the Local Authority and in the event of illegal activities the involvement of the police.

I have read and understand the above and agree to use the school ICT systems (both in and out of school) and my own devices (in school and when carrying out communications related to the school) within these guidelines.

Staff / Volunteer Name

Acceptable Use Agreement for Community Users Template

This Acceptable Use Agreement is intended to ensure:

- that community users of school digital technologies will be responsible users and stay safe while using these systems and devices
- that school systems, devices and users are protected from accidental or deliberate misuse that could put the security of the systems and users at risk.
- that users are protected from potential risk in their use of these systems and devices

Acceptable Use Agreement

I understand that I must use school systems and devices in a responsible way, to ensure that there is no risk to my safety or to the safety and security of the systems, devices and other users. This agreement will also apply to any personal devices that I bring into the school

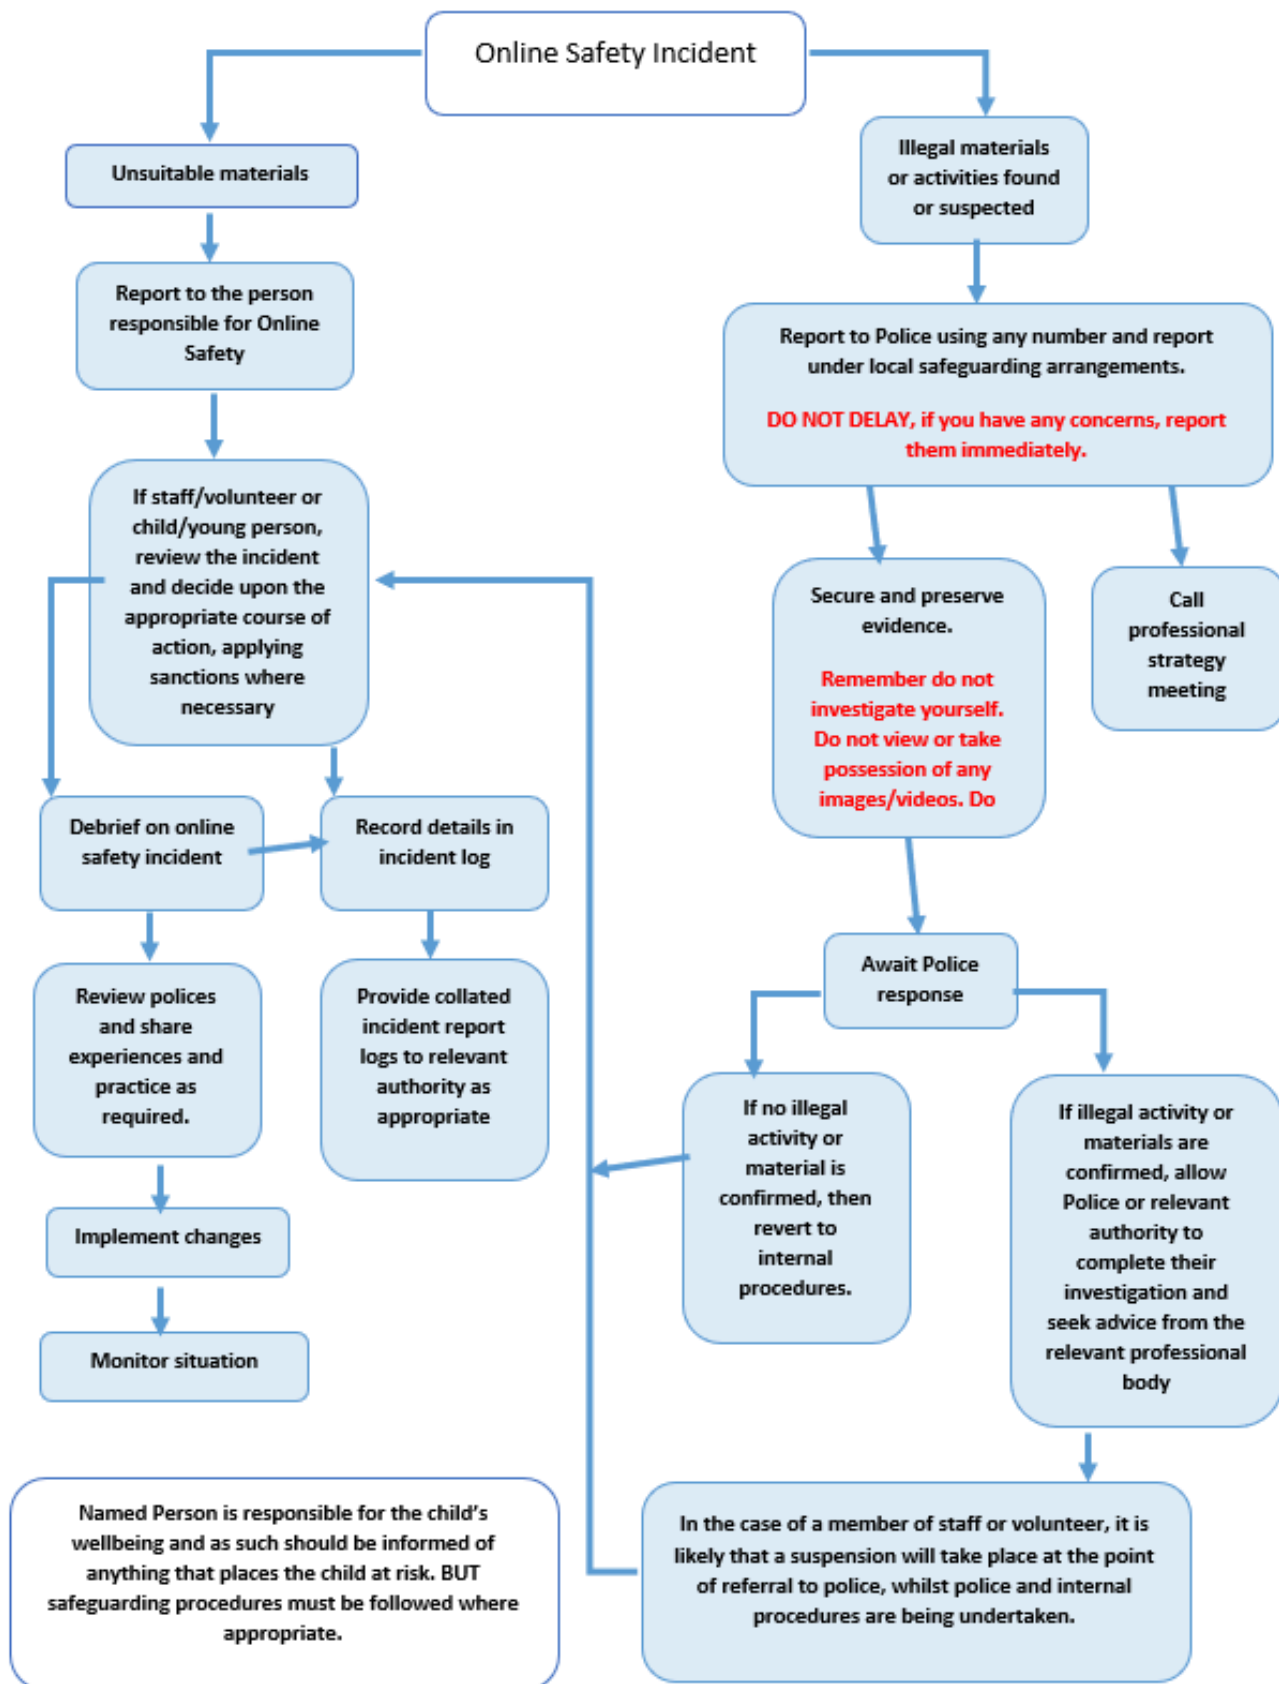

- I understand that my use of school systems and devices and digital communications will be monitored
- I will not use a personal device that I have brought into school for any activity that would be inappropriate in a school setting.
- I will not try to upload, download or access any materials which are illegal (child sexual abuse images, criminally racist material, adult pornography covered by the Obscene Publications Act) or inappropriate or may cause harm or distress to others. I will not try to use any programmes or software that might allow me to bypass the filtering / security systems in place to prevent access to such materials.
- I will immediately report any illegal, inappropriate or harmful material or incident, I become aware of, to the appropriate person.
- I will not access, copy, remove or otherwise alter any other user's files, without permission.
- I will ensure that if I take and / or publish images of others I will only do so with their permission. I will not use my personal equipment to record these images, without permission. If images are published it will not be possible to identify by name, or other personal information, those who are featured.
- I will not publish or share any information I have obtained whilst in the school on any personal website, social networking site or through any other means, unless I have permission from the school.
- I will not, without permission, make large downloads or uploads that might take up internet capacity and prevent other users from being able to carry out their work.
- I will not install or attempt to install programmes of any type on a school device, nor will I try to alter computer settings, unless I have permission to do so.
- I will not disable or cause any damage to school / academy equipment, or the equipment belonging to others.
- I will immediately report any damage or faults involving equipment or software, however this may have happened.
- I will ensure that I have permission to use the original work of others in my own work
- Where work is protected by copyright, I will not download or distribute copies (including music and videos).
- I understand that if I fail to comply with this Acceptable Use Agreement, the school / academy has the right to remove my access to school systems / devices

I have read and understand the above and agree to use the school ICT systems (both in and out of school) and my own devices (in school and when carrying out communications related to the school) within these guidelines.

Acknowledgements

This Online Safety Policy was originally developed and is review using the SWGfL Online Safety policy template and the 360-degree safe online safety self-review tool.

SWGFL would like to acknowledge the contribution of a wide range of individuals and organisations whose policies, documents, advice and guidance have contributed to the development of the online safety policy templates and of the 360-degree safe online safety self-review tool.

Copyright of these template policies is held by SWGfL. Schools/academies and other educational institutions are permitted free use of the Template Policies for the purposes of policy writing, review and development. Any person or organisation wishing to use the document for other purposes should seek consent from SWGfL (onlinesafety@swgfl.org.uk) and acknowledge its use.

Every effort has been made to ensure that the information included in this document is accurate, as at the date of publication in January 2020. However, SWGfL cannot guarantee its accuracy, nor can it accept liability in respect of the use of the material.
