

STYLE GUIDE

GET THE MOST OUT OF YOUR SESSION

CHRISTI STONER PHOTOGRAPHY

PLAN

- Have clean fingernails.
- No gum.
- No cellphones in pockets.
- Make sure children are fed and well rested.
- No shame in having sweet rewards for small children such as smarties or tic tacs. This is a great idea!

WHAT TO WEAR

Casual or Dress it up... either way, Mom pick your outfit first and plan around that. More details on what to wear in the following pages. For a newborn session you want to think soft or muted colors instead of bold primary colors.

THE FEELING

Connection over perfection is the goal. This is a time to play and laugh. There will be prompts for games, hugs, and kisses. Your mindset matters. Lets make it a good memory for everyone.

LET'S TALK LOCATION

Your house is a wonderful place to have sessions. It's cozy, relaxed and it's home. It tells a story.

DRESSY

WHICH ONE WILL YOU CHOOSE?
BOTH ARE FUN!

CASUAL

NEWBORN

vibes- soft muted colors

DRESSING BABY

KEEP IT SIMPLE.

a white onesie is timeless and doesn't cast color onto your baby's face.

ACCESSORIZE.

invest in a darling swaddle, hat or headband instead of a fancy baby outfit.

DRESSING ALL THE OTHER CHILDREN.

If you have other children, what to dress them in can be overwhelming. In the case of multiple children, solids are your friend.

Steer clear of logos on shirts and multiple children in patterns

Add textures to bring dimension to your photos: leather, silk, velvet, corduroy, chiffon, lace, linen, etc.

Avoid having all the children wearing the exact same thing. {Ex: jeans and white shirt}
