

H2L Solutions, Inc. Officially Authorized as a Certified Third-Party Assessment Organization (C3PAO) Under the Department of Defense's CMMC Program

OCTOBER 2025

HUNTSVILLE, AL — H2L Solutions, Inc. (H2L), a Huntsville-based cybersecurity and compliance firm, proudly announces its official authorization as a Certified Third-Party Assessment Organization (C3PAO) under the U.S. Department of Defense's Cybersecurity Maturity Model Certification (CMMC) program. The authorization, received in June 2025, designates H2L as one of the few organizations nationwide accredited to perform CMMC Level 2 assessments for defense contractors within the Defense Industrial Base (DIB).

With its official listing on the Cyber AB Marketplace, H2L Solutions now plays a key role in helping defense contractors achieve and maintain compliance with CMMC requirements—an essential step for any organization handling Controlled Unclassified Information (CUI) or pursuing future Department of Defense (DoD) contracts.

"Our role as a C3PAO is more than a credential—it reflects our commitment to helping defense contractors protect critical information and secure the nation's supply chain," said Jonathan Hard, President and CEO of H2L Solutions, Inc. "As both a C3PAO and an active Defense Industrial Base contractor, we understand the unique challenges our clients face—because we've faced them too."

YOUR PARTNER IN CMMC SUCCESS

H2L Solutions is your reliable and mission-driven partner for achieving CMMC compliance. With multiple certified assessors and dedicated assessment teams available year-round, H2L provides timely, flexible, and cost-effective services designed to simplify the certification process.

- **Proven Results and Expertise:** A trusted track record guiding clients through successful CMMC assessments.
- **Defense Contractor Perspective:** Real-world understanding of DoD cybersecurity requirements.
- **Dedicated Assessment Teams:** Flexible scheduling with no unnecessary delays.
- **Affordable, High-Value Services:** Cost-effective solutions that make cybersecurity attainable for organizations of all sizes.
- **Commitment to Integrity:** In accordance with Cyber AB ethical guidelines, H2L does not perform certified CMMC assessments for any organization that has received its advisory or consulting services within the past three years.

ABOUT H2L SOLUTIONS, INC.:

Founded and headquartered in Huntsville, Alabama, H2L Solutions, Inc. is a HUBZone-certified, Service-Disabled Veteran-Owned Small Business (SDVOSB) specializing in cybersecurity, compliance, and risk management. The company provides expertise in CMMC, RMF, DFARS, and NIST 800-171 compliance, supporting government and defense clients including the FBI, Missile Defense Agency (MDA), and U.S. Army.

H2L Solutions is also ISO 9001:2015 (Quality Management) and ISO 27001:2022 (Information Security Management) certified, ensuring the highest standards of operational excellence and data protection across all engagements. In addition, H2L personnel hold ISO 9001 and ISO 27001 internal auditor credentials, reinforcing its commitment to maintaining continuous improvement and compliance excellence within its own organization.

H2L's cleared cybersecurity professionals hold top industry certifications—including CISSP, CISM, CEH, and OSCP—and operate from a Top Secret-cleared facility. For over a decade, H2L has helped hundreds of DIB contractors strengthen their cybersecurity posture and achieve full compliance.
