

VoIP Media Gateway

Revive, repair, and rejuvenate your PBX.

**Long
Distance
Included**

**Seamless
Integration**

**Flexible
Contracts**

**Cost
Savings**

- ✓ SIP trunking for your PBX
- ✓ Eliminate hardware costs
- ✓ Flat monthly rate per line
- ✓ Multiple conference call bridges

Multi-site trunking
on one system.

Reduced hardware &
maintenance costs.

Unprecedented
quad redundancy.

CONNECT YOUR PBX TO THE CLOUD

Voice Carrier's cloud-based telephone system brings you new features like intercom and conference bridges.

RETAIN YOUR EXISTING EQUIPMENT

Keep your existing PBX, telephones, and phone numbers.

COST REDUCTIONS

SIP trunking simply costs less and reduces expenses associated with hardware, circuit boxes, and wiring.

CALL MORE. PAY LESS.

Includes local- and long-distance calling in the US and Canada, as well as international direct (extension-to-extension) calling.

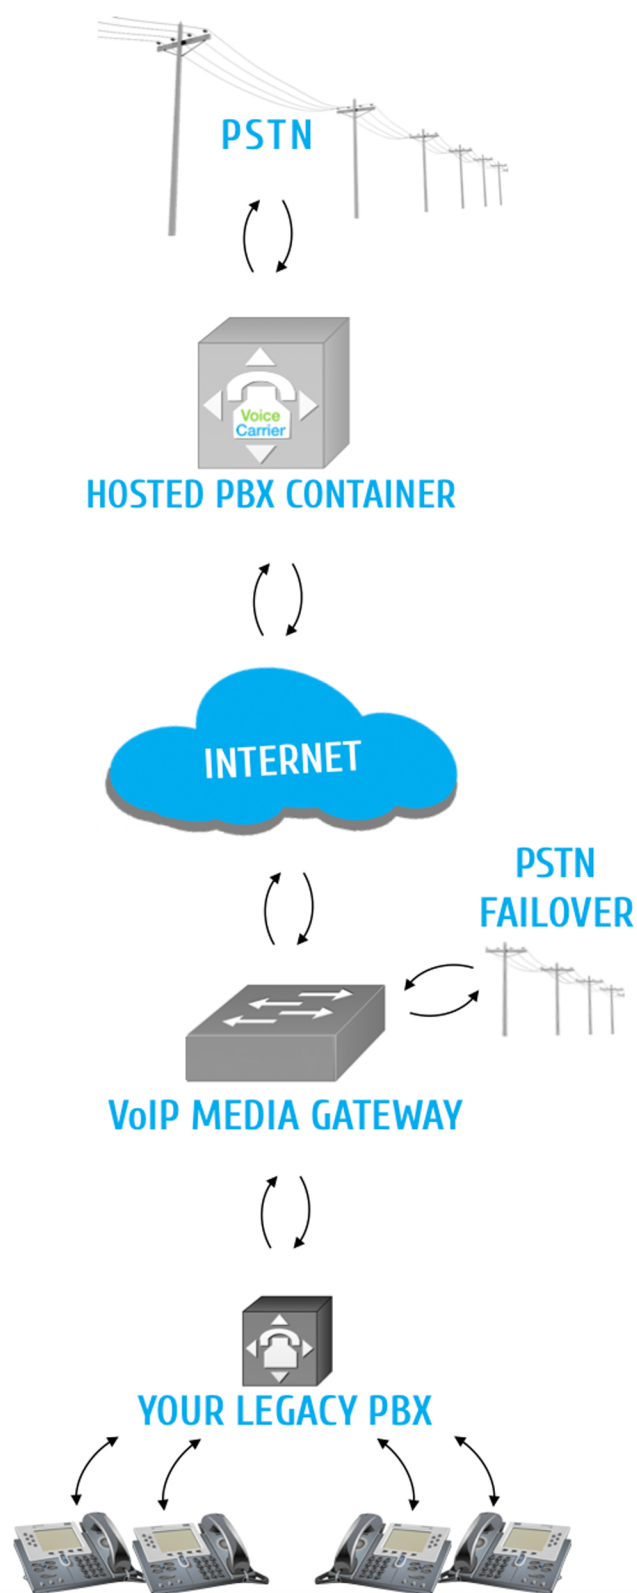

GLOBAL CONNECTIVITY

Expand coverage to remote offices on a single system.

VoIP Media Gateway

System Architecture

Rejuvenate your phone system and reduce costs without replacing your existing analog phones and PBX equipment.

SIP TRUNKING FEATURES

- Pooled trunking for multi-site/franchise locations.
- Inherently lowers communication costs.
- Failover for always-on reliability.
- Reduces hardware, upgrade, and repair costs.
- Interfaces with analog-based PBX infrastructure.
- Unprecedented survivability, redundancy, and security.
- Fully-integrated for business continuity.

EASY CONVERSION

VoIP Media Gateway simply replaces current analog telephone lines, Voice T1, BRI, or PRIs with our enterprise-grade VoIP network. The Gateway is installed onsite, delivering the advantages of a VoIP cloud-based phone system.

SUPPORTED PBX SYSTEMS

Avaya	NEC
Cisco	Nortel
Fujitsu	Panasonic
Mitel	Shoretel

...and many more.
