Floor Area 168m²

Richmond Plan.

Modern Range

*artist impression

The 'Richmond' is a smart, affordable four-bedroom, two-bathroom home that makes the most of every square metre. Designed to sit perfectly down a back section, it offers practical flexibility with the option to position the home to allow extra parking down the side. Inside, scissor trusses elevate the main living area, creating a light, spacious, and grand feel. Thoughtful storage is built in throughout, including a walk-in wardrobe, a walk-in pantry, and three additional storage cupboards—making this plan a compact yet highly functional option that truly ticks all the boxes.
