

Existing Carwash Owners

Challenges of Existing Carwash Owners:

- **Underestimating the level of effort** it takes to run a carwash, especially without personally managing it onsite
- **Return on investment projections are not being met** because the skills, tools and time to overcome issues are not available
- **High employee turnover**
- **Equipment breakdowns** and excessive downtime
- **Poor customer reviews**
- **Low unlimited club members** and/or high customer churn rates
- **General owner and manager frustration**
- **Low and inconsistent hourly car counts**
- **Increased competition from nearby carwashes**

How CarwashOS Can Help:

CarwashOS provides a “reset” of operating procedures and practices that turn around carwash operations to achieve your maximum potential.

The RestartOS Bundle Offers:

- **A comprehensive assessment** of the current site operations with recommendations for improvement
- **Development of a complete Policies and Procedures Manual**
- **A 12-part safety training program**
- **Creating an equipment maintenance program**
- **Weekly consulting calls** with a CarwashOS representative for six months
- **Optional individual programs available**

Benefits:

- **Relief from issues** the carwash may be experiencing
- **Reduced employee turnover** as employees are engaged and trained to do their jobs
- **Increased uptime**, due to more consistent equipment maintenance
- **Better customer retention**, as the carwash will consistently provide quality service
