- 02 CLASSIC FABRICS Page 12
- 03 FANTASY FABRICS Page 16
- 04 TANDEM FABRICS Page 23

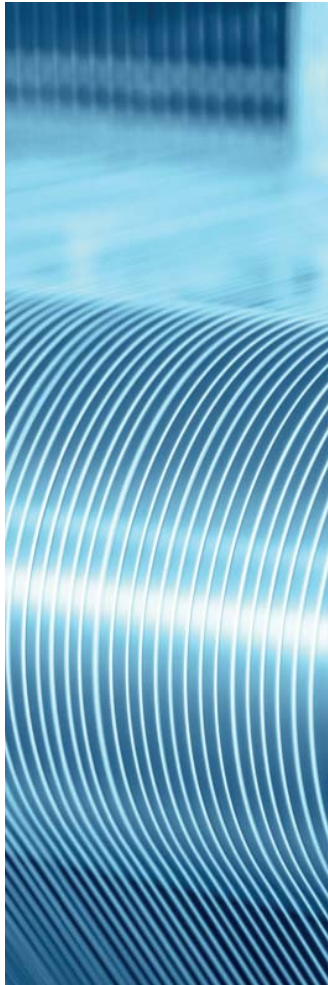

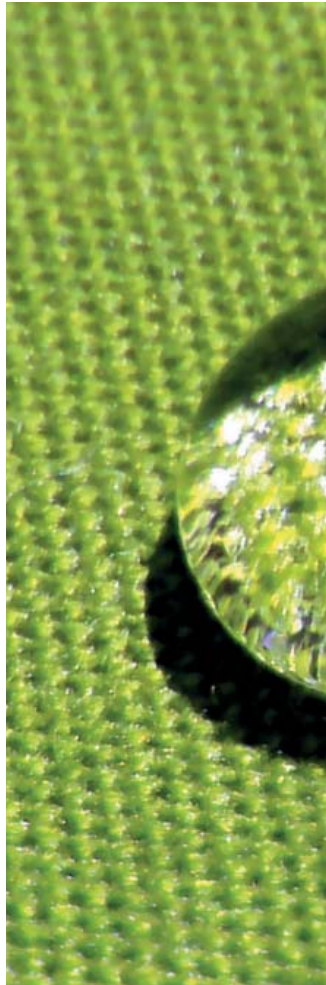

## WE SELECT THE BEST 100% SOLUTION-DYED ACRYLIC

- Exceptional colour resistance and durability
- Maximum protection against UV radiation
- Improved waterproofing
- Maximum dimensional stability

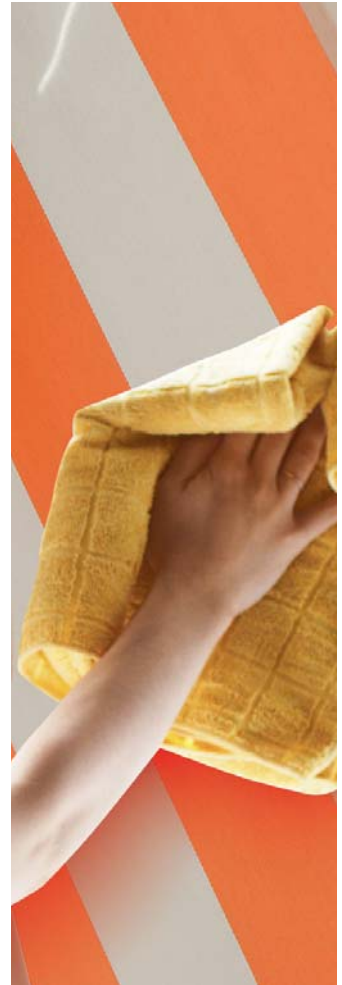

## RESISTANT FABRICS

- Heat shielding effect
- Quick drying
- Prevents dust build-up
- Provides a high grade of thermal and visual comfort
- 100 spray test results with maximum efficiency value

## COATED WITH AN ADVANCED, PROTECTIVE FINISH

- Self-cleaning effect
- Dirt and pollutant repellent.
- Rain resistant
- Simple maintenance

## EASY TO CLEAN

The more you take care of your fabric, the longer you will be able to enjoy it.

Our 3 basic tips:

1. Using a sponge, a mild detergent and water at a temperature not exceeding 30°, remove dirt and rinse with water
2. Always make sure it is dry before rolling it up
3. Do not use abrasive cleaning products

**5 YEAR  
WARRANTY**

## WITH THE WARRANTY THAT ONLY A GREAT BRAND CAN OFFER

Laboratory testing has demonstrated that Copentek fabrics can offer a 5-year warranty when used under normal conditions with standard exposure to the sun and atmospheric agents.

## UV RADIATION PROTECTION

Copentek fabrics provide high resistance to UV radiation, while taking care of the visual environment and obtaining controlled luminosity.

EXTREME UV 80  
HIGH UV 60  
MEDIUM UV 40

## PROTECTING AGAINST HEAT AND COLD

A climatic fabric is breathable, ensuring that moisture and wind cannot pass through it.

A climatic fabric has two effects:

- It reduces the sensation of heat and lowers the temperature beneath the fabric in extremely hot, sunny weather
- It provides a warmer, protective sensation beneath the fabric when the weather is cooler

## ENVIRONMENALLY FRIENDLY

We contribute to environmental safety by using eco-friendly production processes that include the latest safety measures and treating waste to prevent the degradation of the environment. Oeko-Tex certifies that our products are free from toxic substances.

## Normal Coating

Copentek awning fabrics offer superior water repellence without losing their breathable characteristics. All of our fabrics have a coated finish that gives them improved resistance to stains, increases the colour stability and lengthens the life of the fabric.

## Normal Coating

The special resin coated finish gives the fabric a series of properties and a water column over 1000mm.

Its wide colour range makes it the perfect fabric for providing excellent results against water.
