### Are Your Morals Up-To-Date?

Nothing would induce you to appear in the street wearing the CLOTHES of your greatgrandmother, yet you pride yourself on having her MORAL CODE. Perhaps you never stopped to think that MORALS go out of Style as well as CLOTHES although not with such absurd speed. But the fact is that you boast of the MORAL CODE of your greatgrandmother in a day and age when it is even dangerous to follow it.

Your greatgrandmother cared nothing about POLITICS. POLITICS was a far cry to her. To you it is a wolf at the door. It brings poisoned adulterations in the food, diseased germs in the water and sweat-made clothing and you are blind to the changed conditions that need NEW MORAL ADJUSTMENTS. You talk about a WOMAN'S PLACE BEING AT HOME just as your great-grandmother did who got her water from the pump and not from the water commission; who safeguarded the milk, the meat, and even the cloth which she made from flax and wool raised on the home farm. Her children were not learning government-permitted vice on city streets; they were working at many industries under her direction.

Your greatgrandmother protected her family by working and staying INSIDE the home. The welfare of your home is controlled by OUTSIDE forces and these forces are good or bad because of POLITICS. Therefore the moral code of your greatgrandmother is OUT OF DATE and women must wake up and see the need of following NEW WAYS of being good mothers and wives as the result of NEW CONDITIONS.

A clear view of life, as it is, rather than as it was in Colonial days, will reveal this fact: The ONLY WAY a woman can stay at home and yet have a voice in deciding the interests of home is to spend fifteen minutes a year in VOTING for men to REPRESENT her INTERESTS. The place of GOOD WOMEN is in POLITICS by the side of GOOD MEN so that both being counted on ELECTION DAY, RIGHT may win out over EVIL.
