SEA DNA 999

About the model:

Sharp, dynamic, and unmistakably timeless, the Sea DNA 999 is the epitome of TECHNOHULL's performance-driven philosophy.

First introduced in 2005 and completely redesigned with the brand's revolutionary Dynastream patented hull technology, this 10.3m high-performance RIB combines breathtaking speed with uncompromised seakeeping and handling.

Extra & Premium Details

- Covers & Shades: Sun tents for the entire boat (side/rear/navigation) + full boat/engine parking cover + console cover.
- Audio System: Fusion with 10 speakers / amplifier / subwoofer, installed in 2024.

With sleek, aggressive lines and a narrow beam that defies convention, the Sea DNA 999 delivers exhilarating top speeds exceeding 90+ mph, while maintaining extreme stability and control even in challenging sea conditions.

Its sharp waterline entry angles, hyper-ventilating twin step configuration, and advanced deep-V hull redefine offshore performance, offering both the driver and passengers an adrenaline-fueled yet smooth and safe ride.

Inside, comfort meets thrill. Premium shock-absorbing seats, upholstered in luxury marine fabrics, ensure every journey is as enjoyable as it is fast.

A versatile deck layout with multiple configurations allows for seamless adaptation between leisure cruising and performance-driven outings, making it ideal for both adventurous owners and those seeking refined comfort at sea.

Ideal for:

High-speed offshore cruising – thanks to its Dynastream hull design and twin 300hp engines, it offers thrilling performance with stability in rough seas.

Day trips with friends or family – spacious layout, shock-absorbing electric seats, premium sound system, fridge, and sun tents ensure comfort for up to 8 passengers.

Adventure seekers – for those who enjoy adrenaline-filled rides, watersports, or island hopping at 35+ knots cruising speed.

Luxury leisure boating – stylish design with teak, carbon console, LED lighting, and comfort amenities makes it a statement boat for exclusive outings.

Owners seeking turnkey reliability – fully serviced, with major upgrades in 2024–2025 (electronics, audio, electricals, toilet, covers, trailer), the boat is ready to go without extra investment.

The Sea DNA 999 is more than a boat – it is an experience. Designed for those who demand unmatched performance without compromising on comfort and style, this model stands as one of the most iconic offshore RIBs ever built by TECHNOHULL.
