

# Accelerate Digital Business Growth

## Meet Your New Nearshore Partner with Global Scale

Allow us to introduce ourselves. We're Cinq Technologies, and we've recently expanded into North America with one goal — to help you accelerate your digital business growth. Born in Brazil, we're built on a reputation of helping our clients realize digital transformation.

Whether you have your sights on Artificial Intelligence, the Internet of Things, the Cloud, blockchain, or beyond, we hope to earn your trust as you embark on your digital future.

While our name is new to you, our commitment to innovation is fueled by decades of digital transformation success. We invite you to explore the Cinq difference first-hand:

**We put your success first:** Your needs and the needs of your clients are our biggest priority. This client-centric approach means we hold ourselves accountable to deliver creative, agile digital solutions.

**We give you access to the brightest minds in real-time:** Collaboration is our mantra and our clients are our partners. We work alongside our clients to proactively deliver custom solutions that meet your unique needs.

**We look beyond the cutting edge:** Always innovating, always designing, Cinq strives to continuously provide value to your business, and have been doing so for more than 13 years.

How can Cinq help you accelerate your journey to digital transformation? We'd love to meet with you for 30 minutes to discuss your most pressing digital development projects and offer you a complimentary strategy session.

**Schedule your 30-minute  
digital brainstorm today.**
