Solutions delivered through Pulsar and supported by Technology Cost Containment Advisors (TCCA).

## WHY CAMPS WORK WITH PULSAR

**End-to-end connectivity, security, and safety solutions for remote environments — supported 24/7.**

## CHALLENGES CAMPS FACE

- Limited or unreliable internet access
- Remote locations with minimal infrastructure
- Safety and emergency communication needs
- Seasonal operations with changing requirements
- Difficulty supporting technology remotely

## WHY CAMPS WORK WITH PULSAR

Pulsar designs end-to-end connectivity, security, and safety solutions for remote environments — all supported 24/7 — so camps can focus on their mission, not their technology.

### Connectivity

Reliable primary and backup connectivity for remote locations.

### Network security

Secure and protected network environments

### Staff Safety & Tracking

Support staff working off-grid or in remote areas.

### Disaster & Emergency Communications

Reliable communication during outages and critical situations.

## BENEFITS

### Reliable Connectivity

Stay connected and supported even when traditional services fail.

### Enhanced Safety & Security

Protect staff, data, and communications in remote environments.

### Flexible & Scalable Solutions

Solutions tailored for seasonal or year-round operations.
