

CHeKT Deep Learning AI Server

12 Channel AI Video Server

- 12 Channels of Deep Learning Video Analytics
- On Premise Server-based Video Analytics Software
- Video AI Server to Allow Universal Deployment Of Deep Learning Analytics
- ONVIF AI Encoder for Integration Video With Analytics Into VMS Platforms

1 Product Features

12 Video AI Channels

The CHeKT AI Server provides deep learning on camera streams.

Central Station Integration

When paired with the CHeKT Video Control Panel, it communicates critical AI events into 24/7 video command centers for a real-time response.

Video Alarm Detection

Uses ONVIF-based camera analytics and AI server systems to create video alarm events.
