

Mom: That's what they say.

Hi Mom. Today I learned in school that I evolved. The forces of nature somehow accidentally worked together to form me and you and Dad too!

Scene Two

Student: If evolution can't make a simple arrowhead, how could it possibly make the man who made the arrowhead? A man is so much more complicated. He thinks, breaths, hears, sees, moves around, and can reproduce. Hmmmm. There must be a creator God. And I'd like to know God and be God's friend.

There must be a Creator God.

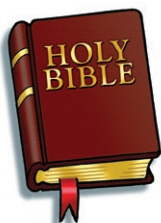

But God demonstrates his own love for us in this: While we were still sinners, Christ died for us. — Romans 5:8 NIV

Jesus said, "I am the Way, the Truth and the Life. No one comes to the Father except through me" (John 14:6 ESV). Your desire to know God and be God's friend means that the Holy Spirit is to working in you to draw you to God.

SUGGESTED PRAYER

"Dear Almighty God, creator of heaven and earth, I believe you exist and that you have created me. I want to know

you and be your friend. I need your forgiveness for the things I've done wrong. I believe that Jesus died for my sins on the cross and rose from the dead to save me and all the other people who want to know God and be God's friends. Please forgive me and take me to be your very own. I open the door of my heart and say, "Lord Jesus, come in and by your Holy Spirit, live in me. I receive you. Let's do all of life together. Amen."

Now, read about Jesus Christ, our God and Savior in the New Testament books of the Bible, Matthew, Mark, Luke and John. Use this QR code and your smart phone to download your own copy of the Bible.

The English Standard Version (ESV) is recommended. It is easy to listen to and easy to understand.

Americans were here. years. It was made by the hand of man. It proves Native all rounded? No, Evolution could never make that in a trillion like all these beach rocks. Haven't you noticed how they're round off the edges of evolution would artifact. The forces arrowhead. It's an

Professor! Look! Isn't it amazing how the forces of evolution shaped this rock so that it has a sharp point and sharp edges? I suppose the waves of the sea crashed it against other rocks until after millions of years it looks like this.

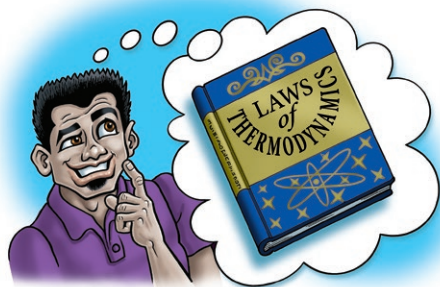

Scene One

By Wes Daughenbaugh
EncouragementExpert.com

Well, I'm not going to clean my room anymore. Why make my bed or organize my room if evolution can organize things as amazing as human beings? I'll just leave the window open and let evolution organize my room.

Dad: You could leave your room alone for a trillion years and the forces of evolution would never make your bed or hang up your clothes. It would only get more chaotic and

disorganized. The second law of thermodynamics says that unless order is injected into a system it will always tend to disorder and get more disorganized. That applies to your room. You'll have to organize it.

Hmmm. If the forces of evolution could never organize my room or make my bed how could those forces possibly make ME?

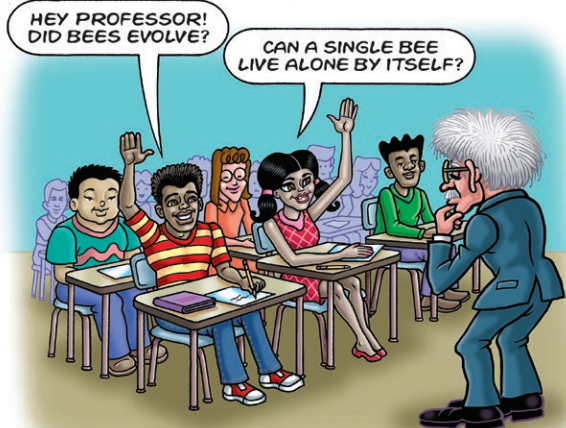

My body has 100 trillion cells that are highly organized! And every cell has about 5,000

books of data stored in the DNA (1.5 GB). Besides that, in my intestines there are another 100 trillion single celled bacteria that help me digest food, breath air and fight off disease. And all those cells and bacteria work together. That's a LOT of organization.

There must be a great Organizer, a Creator God. I'd like to know God and be God's friend.

Scene Three

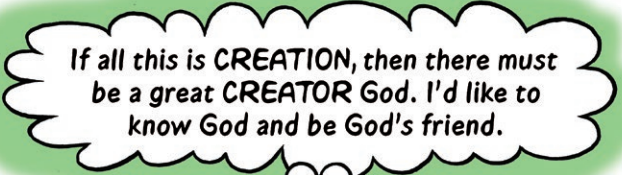

Professor: Yes and no. Every living thing evolved over billions of years.

But No. Bees can only survive in a colony we call a hive. A single bee all by itself would quickly die.

Boy: So then, a whole hive of bees had to evolve at once, at the same

time and in the same place in order to survive. Oh, and since they live on the nectar of flowers, a bunch of flowering plants must have evolved at the same time and place or the beehive would have died as soon as it evolved. That sounds like CREATION to me.

JESUS IS THE WAY TO GOD: It's good that you realize there has to be a creator God. Jesus is the Son of God. He is both fully God and fully human. He became a man so that He could show people what God is really like. The Father God and Jesus are One. The Father God sent Jesus into the world to show people what real truth is. Because Jesus had no sin of His own, and because He was and is God in human form, His goodness was and is without limit. Evil spirits moved upon evil people to kill Him by nailing Him to a cross. God allowed them to do this because by yielding up His life in this way infinite goodness died in the place of sinful humans and Jesus Christ's goodness was and is greater than all their sins. His blood was shed to provide forgiveness of sins and eternal life for you.

After He died on the cross He was buried but rose to life on the third day. Now He is alive forever more. Come to Him and He will give you eternal life. He is the gift of God that you should accept. With Jesus comes forgiveness and eternal life.
