

Dear Natalie,

Summer is upon us! Some of you are enjoying the close of a school year (congrats), and others a chance to take a break and embrace a fresh adventure. For some, summer means pushing through and continuing to show up. Whatever summer means for you, know that Outreach Center of West Houston is here for you. All classes and meetings are still in session, and to top it off, FamilyPoint Resources has started summer camps. The all-day sound of joy is refreshing!

When there are a lot of moving parts, updates can take time, but we are pleased to share that a gas line has been installed under the building to eventually power our generator! The building is just about ready to stay functional during any disaster. Also, know that we are excited about what will hopefully be visible updates to the facility in the coming 48 days with the new lobby digital display as well as strengthening of the wi-fi signal!

Sincerely,

A handwritten signature in black ink that reads 'Jorge R. Quiñones'.

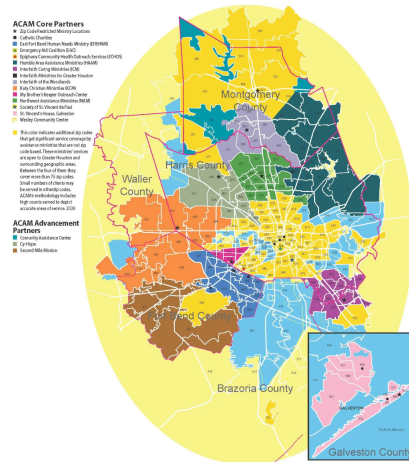

Jorge Quiñones
Executive Director

May Highlights

Shout-out to the Nonprofit Leadership students at the University of Houston Downtown. They worked with us for a few months to identify potential growth partners to meet real, data-backed needs of the community in future phases of our building capital campaign!

The Junior League of Houston's meet-up of area nonprofit executives and development departments is always an enjoyed opportunity for us to learn and grow from Houston's great minds in the field of service. The topic was board governance and structure, and we are excited to put in motion the takeaways.

Jorge enjoyed visiting the Alliance of Community Assistance ministries, a group that is dedicated to developing, supporting, and implementing solutions that address homelessness, hunger, and financial instability. What an honor to learn more about this wonderful organization and to discover OCWH's place in such synergy!

[Click here](#) to see a map of participating partners.

It was very impressive to watch the speed, detail, and accuracy of the construction crew that came to install a gas line from the Bateswood side of the building, all the way underground to the western side of the building in preparation for the installation of a building generator. Should there be any hurricanes to come that would regularly compromise our power connections, we will be literally be able to power through instead!

We love Michelle Bogaard! Michelle had done three murals with us so far. This last one we had her do on the outside windows in honor of recent building grads and to welcome summer! Her talent is amazing! If you look closely, you will see the names of the PDAP and FPR grads/scholarship recipients! Way to go students, and we look forward to what great things you will add to society in the coming years.
