

Maths Year 5

Geometry: Properties of Shape

- Identify angles.
- Compare and order angles.
- Measuring angles in degrees.
- Measuring with a protractor.

Statistics

- Interpret charts.
- Line graphs.
- Timetables.
- Two-way tables.

PSHE - Managing Change

This term, the children will learn how to identify a range of situations which involve loss and change. They will also learn how to recognise emotions associated with loss and change, and understand how these feelings can change.

Latin

This term, the children will continue to learn how to read and write a range of nouns, verbs and adverbs in Latin.

RE - Are all people equal?

This term, the children will learn about the concepts of 'equality', 'justice' and 'freedom of religion and belief'. They will explore what it means to be part of an organised worldview and they will learn more about a person's context affects their way of experiencing that worldview.

HALF TERM VALUE - TRUST. The value of trust will be woven into all learning.

Maths Year 4

Geometry: Properties of Shape

- Identify angles.
- Compare and order angles.
- Turns and angles..
- Right angles in shapes.

Statistics

- Interpret charts.
- Line graphs.
- Bar graphs.

'The Victorian Age' and 'Local Study'

PE

Athletics - the children will learn how to run, jump, throw and catch in isolation and in combination.

The children will also learn how to play rounders.

Music - English Folk Songs

In this unit, the children are introduced to English folk songs by learning about the song *Hopping Down in Kent*. The children will learn that folk songs are popular, traditional songs from a particular region or country.

History

This term, the children will learn about the significant life of Queen Victoria: both her personal life and some of her decisions as a monarch, including her involvement with the British Empire. During the unit, children will consider the similarities and differences between the lives of the rich and the poor in Victorian England.

Geography

This term's learning builds on children's understanding of mapping, fieldwork and data. The children will look at maps of the local area, will sketch maps using their knowledge of the local area and will collect and analyse data.

Art and Design - Photography

This term, the children will learn the beginnings of photography by studying Victorian portraits. The children will then learn how to take photographs themselves and how we can edit them to make them more effective.

DT - Bags

This term, the children will be designing and then making a bag decorated with embroidery with a plaited handle for a family member to use at home.

Science - Meteorology

In this unit, children will deepen their understanding of meteorology. The children will learn about weather, climate, atmosphere and forecast. The knowledge gained in this unit allows the children to think more like meteorologists, using data and diagrams to deduce and draw logical conclusions.

English

Reading: Class books = Journey to the River Sea by Eva Ibbotson. Macbeth (A Shakespeare Story) - William Shakespeare and Andrew Matthews.

Fiction: The children will be writing a short narrative re-telling Miss Minton's story. The children will also turn a playscript into a narrative.

Grammar and Punctuation: The children will be learning how to use expanded noun phrases, dashes and semi-colons effectively in their writing. They will also learn how to use relative clauses and how to accurately demarcate direct speech.

Spellings: The children will be learning the rules for how to spell words which end in '-ce' or '-se' and '-cious' or '-tious.'

Computing

The children will develop their knowledge of 'selection' by revisiting how 'conditions' can be used in programming, and then learning how the 'if... then... else...' structure can be used to select different outcomes depending on whether a condition is 'true' or 'false'.
